Description

Stop the press! Erwin Hymer Centre (Travelworld) are proud to present Hymer's all new B Class Comfort Line! This new generation of Hymer's have blown most other manufacturers out of the water with their beautiful finishes and cutting edge technology. For those who always want to be ahead of the game, here is a motorhome that perfectly complements this - Hymer have collaborated with Mercedes Benz to create the world's first motorhome based on the new Mercedes Sprinter! This new chassis includes multiple assistance systems, the cutting edge Mercedes Benz User Experience (MBUX) as well as state of the art Mercedes Benz cockpit design. Hymer themselves have produced the BMC range with their SLC chassis with a next generation super lightweight design and deep double floor. PUAL 2.0 aluminium sandwich construction has also been used in the construction making it 100% wood free - to withstand to any weather condition.

This 690 integrated version is the longest in the range at 7.39m and features an Island bed over large garage. The L shape lounge has been finished with stunning new ambient lighting and cabinetry designs with drop down bed over the cab. There are a wealth of options that can be added to these motorhomes, enabling you to customise the whole vehicle to your exacting specification. If you would like to talk about specifying your brand new BMC please call us on 01785 878787
