

HYMER integrated

HYMER Exsis-i, HYMER B-Class, HYMER B-Class SL and HYMER StarLine S.

HYMER

The HYMER plant in Bad Waldsee – at the heart of Europe.

Dear Motorhome Owner,

For us, the term “living room on wheels” is not just an empty phrase. HYMER motorhomes deliver exactly what our customers expect from us: excellent quality, a high level of comfort, superior furnishings and optimal safety – and it all comes as standard! After all, we want you to enjoy all the comforts you have at home when you’re on holiday too. That’s why – all rational considerations aside – buying the right motorhome is always an emotional decision too, based on your gut feeling. Erwin Hymer was well aware of this when he launched the first series-produced motorhome in 1971.

And it’s still true today! Across all classes, from the compact semi-integrated to the premium integrated models, HYMER does its utmost not just to satisfy its customers’ wishes and expectations, but to surpass them. As a pioneer in this sector, this is part of our self-image and a debt we owe to the brand’s long tradition. Why not see for yourself and discover the advantages of our wide range of models. This brochure will help you do just that.

Erwin Hymer (* 27th July 1930 † 11th April 2013), a leading figure of the European caravan and motorhome sector.

The Pioneer

Inventor, visionary, entrepreneur – Erwin Hymer wrote camping history by turning his group of companies into a European market leader.

Technical know-how, the pioneering spirit of the entrepreneur and a healthy dose of ambition and hard work – all of these were typical of Erwin Hymer, who died in April 2013. From small beginnings, he created a group of companies which now ranks among the leading motorhome and caravan manufacturers in Europe and is active worldwide.

As a young engineer, Erwin Hymer followed his parents' calling and began working in his father Alfons' repair shop in the southern German town of Bad Waldsee in 1956. Just one year later, he developed the first caravan – the original "Troll" – in collaboration with the engineer Erich Bachem. And thus began a new era! The next decisive step came in 1971 with the launch of the first HYMER motorhome – a key milestone in our long corporate history.

The past 57 years have seen a wide variety of different series, models and layouts. Many of the motorhomes and caravans set standards and ushered in new trends – especially in terms of technology, comfort, quality, design and safety. For our founder Erwin Hymer, incorporating customers' wishes into the development of new and improved vehicles was always a matter of principle.

As a result, the concept of the mobile home has always been inseparably linked with the name HYMER. And the passion and professionalism that goes into the development and construction of our vehicles communicates itself to our customers. For decades, Erwin Hymer's inventiveness and ceaseless creativity has shaped the entire industry. His whole life's work provides us with a model for future corporate decisions.

A unique success story

The history of the HYMER motorhome.

The development of the integrated Hymermobil at the beginning of the 70s ushered in a new era in the history of motorhoming. This year will see the 150,000th HYMER motorhome leave the production line. From the legendary B-Class or the luxurious S-Class to the lightweights of the Exsis series or the colourful variety

of semi-integrated models – many vehicles from these model ranges have been crowned with major awards over the years. This chronicle sketches the key stages in the remarkable success story of the Hymermobil.

1923

1957

1961

1971

1976

1978

1981

The beginning of a unique success story.

Alfons Hymer begins production of agricultural vehicles.

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

The first hand-built HYMER motorhome, the Caravano, makes its debut.

The first Hymermobil is built and presented at the Caravan Salon.

The Hymermobil 521 with fold-down double bed in the cab becomes a bestseller.

The innovative PUAL wall structure is developed and proves its stability.

The HYMER B-Class is introduced and develops over the following years into Europe's most popular motorhome.

1986

HYMER becomes the first manufacturer to grant a 6-year water ingress warranty on its motorhomes.

1995

HYMER presents the new S-Class and becomes the first company in the industry to be certified according to ISO 9001 on the strength of its high product quality.

2004

In October, the 100,000th Hymermobil rolls off the production line in Bad Waldsee.

2007

HYMER's 50th anniversary is honoured with an anniversary edition of the B-Class SL in gold.

2011

Opening of the Erwin Hymer Museum opposite the company headquarters in Bad Waldsee.

2012

Lightweight design from Bad Waldsee – HYMER puts its stamp on the 3-ton class and sets new standards within the industry.

2014

Europe's leading manufacturer produces the 150,000th HYMER motorhome.

Unique to HYMER:
the symbol for top quality
you can see and feel in every
HYMER motorhome.

Why HYMER?

The name HYMER is synonymous with motorhoming.

*www.hymer.com

There are many important criteria to consider when buying a motorhome. After all, it's an investment you expect to benefit from for years or even decades to come, enhancing your leisure time and holidays and bringing you freedom and independence. So who better to turn to for information than a renowned supplier and world market leader with a wide selection of vehicle types? All products are developed on the principle that HYMER customers are entitled to expect a high-quality vehicle with superior comfort, and one which represents a worthwhile economic

investment. In addition, all HYMER motorhomes are equipped with extensive safety features as standard. The specialists from Bad Waldsee pride themselves on setting ever new standards, especially – though not only – in terms of weight or PUAL (polyurethane/aluminium) construction. What's more, HYMER customers have access at all times to a comprehensive range of services. For all these reasons, when it comes to choosing a motorhome, you need look no further than this premium product from Bad Waldsee!

We are always close at hand – as service providers and as people who share a common passion.

High-tech body

Every HYMER is a masterpiece of engineering.

Besides their innovative safety features and high level of traveling comfort, our motorhomes have a key advantage that makes for excellent value retention: their durable high-tech bodywork. Every Hypermobil component is the product of years of development and testing drawing on state-of-the-art material science

and engineering. Thanks to the integral insulation concept and sophisticated heating and ventilation system, our vehicles are equipped for all weathers and suitable for year-round use. That puts us one step ahead of other motorhome manufacturers!

Top marks

Each Hypermobil is subjected to various endurance tests, e.g. extreme cold. It then undergoes further detailed testing by our staff.

Double glazing

The inclusion of high-quality framed windows with acrylic double glazing as standard is a further HYMER milestone.

Robust coating

Corrosion, cold and material fatigue don't stand a chance in the Hypermobil thanks to the GRP roof coating, floor and other components. Protection against grit and salt is likewise guaranteed.

Weight saving thanks to lightweight construction

The PUAL wall design guarantees a perfect interior climate and good heat insulation, and the innovative lightweight construction technique as a whole has many advantages. Gapless elastic bonding ensures that the walls and roof are sealed together tightly, making them both waterproof and capable of withstanding extreme stresses. And just to be on the safe side, HYMER offers a six-year water ingress warranty.

Winter resistance

For carefree travel even in cold and snowy conditions.

All our Hymer motorhomes are factory-fitted with winter-proof features, making them suitable for year-round use. Clever climate control solutions such as the insulated service installations and tanks, the sophisticated heating and ventilation system and

HYMER's unique bonding technology make them fit for all weathers. That way you stay warm as toast even when it's icy outside. Thanks to the winter-proofing features, your pipes and tanks can't freeze – and you save gas thanks to perfect heat insulation.

Truma heater

Installed as standard, the 6,000W Truma Combi 6 heater easily maintains a cosy temperature throughout the interior even when it's freezing outside.

Central heating

Its central location under the seating area means that the heat is distributed optimally throughout the vehicle. Numerous heating outlets ensure a pleasant temperature throughout the living area.

Cosy cab

The front windscreen too is supplied with plenty of warm air. That way the entire cab and living area stays at a pleasant temperature even in the cooler months.

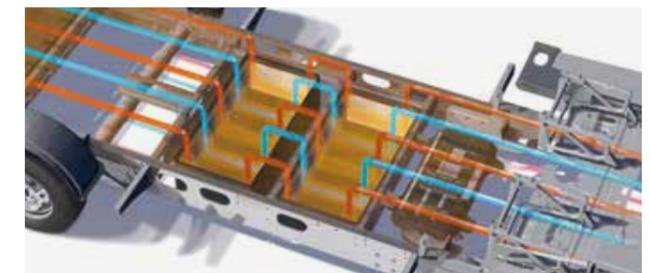

Winter ventilation

Winter air vents are provided in the windows and seating areas and in the kitchen. These ensure efficient air circulation and an optimal climate inside the vehicle.

Rear ventilation

All overhead storage cupboards have a void at the back through which warm air can circulate freely, thus avoiding unwanted condensation.

The vehicle for winter sports fans

Our motorhomes offer a hassle-free all-round package for winter sports enthusiasts: insulated service installations and tanks, heated dashboard and exterior locker compartments, winter air vents in the windows and seating areas and a warm air supply under the cab seats. As for the exterior, the GRP floor provides effective protection against grit and salt.

Every modern convenience

What more could you wish for?

High standards have always been associated with HYMER and its customers. So it's no wonder that even the standard equipment of our vehicles includes a number of high-end comfort features – not to mention the wide choice of high-quality extras. But comfort isn't just about equipment. Whether or not you feel at home

in a motorhome is determined by fundamental factors such as spatial effect and proportions, freedom of movement and the user-friendliness and functionality of the individual elements. HYMER scores on all these fronts – you can just feel the quality.

Power saving

HYMER living areas are notable for their warm atmosphere. Pleasant illumination is ensured by the large windows in the daytime, and by the standard integrated LED lighting system in the evening.

Adaptable bathrooms

Whether you opt for the variable bathroom, variable premium bathroom or open bathroom with separate shower: all offer remarkable freedom of movement.

Culinary pleasures

No culinary wishes go unfulfilled in a HYMER kitchen thanks to top-quality fittings, an ergonomically designed workspace and plenty of storage for provisions and cooking utensils.

Healthy sleep

A good bed is the foundation of healthy, restorative sleep. That's why every Hymermobil comes with modern multi-zone cold-foam mattresses in the sleeping area.

Stowage space galore

The stowage facilities combine quantity and quality to a unique degree. From the extra-large garages to the many storage compartments and overhead storage cupboards – not an inch of space is wasted.

Secure storage

All kitchen drawers are equipped with ball bearings for a smooth action and feature a Servo-Soft closing mechanism and fasteners to prevent them from opening and rattling while the vehicle is in motion.

Feel-good design

A higher-quality interior.

What HYMER offers is more than just a living environment: it's a veritable living experience! The perfect coordination of the components is visible at a glance. The design is attractively contemporary, geared towards international trends but always customer-oriented. It brings together technical functionality and a

feel-good ambience. All upholstery is designed by HYMER's textile designer and produced in our own sewing workshop for guaranteed top quality. In all our furnishings, we pride ourselves on using premium materials which are pleasant to the touch.

Design & quality

The intelligent light construction concepts of our motorhomes are a perfect combination of contemporary design and top quality. New design trends can be readily adopted without compromising the traditional cosy look and stylish ambience of our vehicles. The kitchens are extremely easy to clean and boast modern worktops and fittings in an attractive household style.

Upholstery & fabrics

Only textiles from renowned manufacturers are used in our sewing workshop. All fabrics are stain-protected and meet the relevant standards for UV stability, colour and hot light fastness.

Handles & fastenings

The easy-grip, ergonomic real metal handles are extremely durable. The HYMER closure system guarantees secure locking of every cupboard door.

Colours & materials

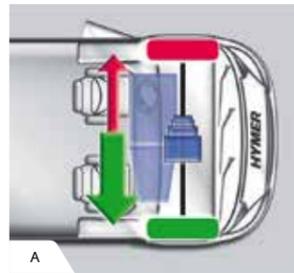

Colours, materials and finishes are crucial to the spatial effect. A balanced, warm colour scheme creates a pleasant atmosphere you'll want to spend time in.

Maximum safety

Prepared for all eventualities.

Driving safety and comfort have reached an extremely high standard in the automotive sector. That same standard is applied to each and every HYMER motorhome. Top safety standards are defined at the development stage and successfully implemented – from the vehicle body to the intelligent electronic safety systems.

These serve to assist driving and acceleration, e.g. on difficult terrain, and to ensure better roadholding. They prevent the vehicle from skidding or swerving and the wheels from jamming in critical situations. They also assist driving and manoeuvring in mountainous areas, on uphill and downhill stretches.

Standard driving safety

The excellent driving comfort of HYMER motorhomes is complemented by an extremely comprehensive standard safety package featuring driver and passenger airbags, ABS, TCS und ESC incl. Trac-

tion+ (A). Added safety and convenience is provided by electrically adjustable and heated wing mirrors, a daytime running light and hill holder and hill descent assist facilities.

All-round view

The high, panoramic windscreen, extra-large side windows in the cab and standard daytime running light ensure safe, all-round visibility.

Weatherproof on tour

In integrated motorhomes, the three windscreen wipers and wide wiper field guarantee a clear view of road edges and crossroads.

Excellent roadholding thanks to AL-KO frame

The AL-KO lightweight technology cuts down on weight without compromising on stability. That way, motorhomes on a Fiat chassis can have a bigger payload. The lower centre of gravity improves driving stability and the broad-gauge chassis ensures better roadholding, while the torsion bar suspension and high-performance wheel shock absorbers guarantee you a smooth ride equal to that of a car.

Innovation

Always a HYMER's length ahead.

As a pioneer of the motorhome sector, HYMER has developed a number of revolutionary innovations over the past few decades which have had a lasting influence on motorhoming culture. The crank-handle rooflight, the wheel arch refrigerator, a specially developed HYMER headlight and the fold-down bed

are just a few examples. Our future agenda will focus more than ever on the ecological aspect, particularly with regard to maximising energy efficiency. HYMER has long set standards in this field, achieving drastic weight reductions thanks to innovative materials and the use of state-of-the-art LED lighting technology.

29 × promobil
Motorhome of the Year
1987 – present

Travel safety

Safety should be more than just an aspiration. That's why HYMER already fulfils all the statutory safety requirements with its standard safety package.

Made by HYMER

High-quality furniture design is a HYMER tradition. 90 % of all furniture parts are made in our own factory – with modern technology and materials. The fittings are household standard.

Spacious interior

HYMER is the inventor of the fold-down bed in the semi-integrated motorhome. The sleeping area in the roof takes nothing away from the living area and leaves scope for a creative layout.

Magic weight

This is standard with the "inventor of the 3-ton class": the Exis-t, ML-T and Exis-i all weigh in below the magic limit of 3.5 tons for example, even with a large payload. Not only does this save fuel: in some countries, it also avoids higher toll fees. Another plus is that vehicles of this weight can also be driven with a category B driving licence.

Added value for all

Value retention and economy as standard.

HYMER customers not only get to enjoy their vehicles for longer: they also get more out of them. Take the comfortable warmth combined with low heating costs, for example – all thanks to first-class insulation. Or the advantages when it comes to road tolls and taxes: thanks to the innovative lightweight construction

of our motorhomes, you not only save weight, but money too. In short, each Hymermobil represents an extremely worthwhile investment – not to mention the unique return you won't get anywhere else, i.e. the unforgettable holiday experiences you can enjoy where and whenever you choose.

Value for money

HYMER motorhomes offer a good price/performance ratio across all vehicle classes and model ranges. With our vehicles, you really do get what you pay for.

Lasting value

The value retention of HYMER motorhomes is legendary. Even after several years, the vehicles remain reliable travelling companions and fetch an accordingly high price on the market.

Top service

A first-class, reliable service is central to the HYMER ethos. The dealer and customer service network with qualified workshops throughout Europe is unrivalled within the industry.

More equipment

Hymer motorhomes leave no wish unfulfilled and offer more in the standard version than other manufacturers do in their customised vehicles. We never compromise on performance for the sake of cosmetic price reductions.

Efficiency savings

Savings on gas and electricity mean lower costs and a longer range. The first-class insulation, high-tech body shell and heat insulation therefore pay for themselves within a short time.

Quality controls

From the drive to the bodywork to the smallest accessory: all Hymermobil components are impeccably engineered, and are subject to the strictest material tests and quality controls.

The world of HYMER

For all your motorhoming needs.

A Hymermobil leaves no wish unfulfilled. And HYMER leaves nothing to chance when it comes to after-sales service either. We make sure our customers get exactly the help they need. In addition to exemplary support and a dense dealer network, you can always draw on the active and well-organised HYMER com-

munity. And that goes not only for the purchase itself: our service extends well beyond, with help and advice in case of any necessary repairs and tips and suggestions regarding original parts and accessories. That way new customers often become true "Hymerists" in no time.

On your doorstep

Always there for you in your vicinity – thanks to the extensive HYMER dealer network, you can get rapid assistance and competent advice without having to travel long distances.

HYMER on the internet

At www.hymer.com, you will always find all the latest information on our series and models, along with everything you need to know about our company and the service we offer.

HYMER on Facebook

We already have nearly 20,000 friends on our Facebook page, and the number is rising daily. Why not join them? www.facebook.com/hymerAG

Motorhome of the Year 2014:
1st place in the category
"Integrated up to EUR 70,000"

The HYMER Exsis-i

The new lightness.

Maximum flexibility and comfort are a must when it comes to motorhoming. The HYMER Exsis-i combines both in an exceptionally elegant form. These slimline vehicles weigh in at well below three tons unladen – and that includes their extensive standard outfit. Even with a full complement of passengers and a hefty payload, they remain well within the 3.5-ton limit. The Exsis-i is regarded as a pioneer among integrated motorhomes in terms

of lightweight construction. The model's generous layout and 1.98 metre interior headroom are belied by its compact exterior. Such compactness, together with an optimally positioned wheelbase, makes for excellent manoeuvrability. And that goes for any time of year: with its fully foamed PUAL body shell, GRP floor and thermally insulated and heated plumbing, the Exsis-i is armed for all weathers.

Profile *
Weight: 3,500 – 4,500 kg
Length: 5.99 m – 7.20 m
Width: 2.22 m
Height: 2.77 m
Berths: 3 – 4

HYMER Exsis-i highlights

Flexibility and comfort made easy.

Seitz S7 framed windows

All tanks and service installations insulated and heated

Light, slender and manoeuvrable thanks to an outside width of 2.22 m

Large garage doors on right and left in direction of travel

GRP lightweight floor construction with styrofoam insulation

AL-KO lightweight frame with independent suspension

Slimline in shape but lavishly appointed: the HYMER Exsis-i offers you a range of high-end features as standard. That way you can enjoy first-class driving and living comfort – and it's all included in the unladen weight of less than three tons.

Tailor-made undercarriage

The specially developed AL-KO lightweight grey frame with independent suspension forms the perfect basis for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Heated undercarriage

The floor conceals the fresh water (A) and grey water tank (B) in insulated trays (C), which have hot air flowing through them (D). All the plumbing and wiring (E) is accommodated in

the heated living space, safe from frost. The numerous, optimally distributed hot air outlets guarantee perfect climate control throughout the whole vehicle.

Double-sided garage access

The garage comes with full-height doors on both sides of the vehicle as standard. That way, it can be loaded from both sides and luggage remains accessible from the outside at all times. And with a maximum loading capacity of 350 kilos, what's not to like?

Lasting protection from below

The indestructible GRP underbody makes the vehicles practically immune to weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid foundation for the entire service life of your motorhome.

Thermally insulated cab

Like the living area, the front of the vehicle is optimally insulated. The double-skin GRP nose section with intermediate PU foam insulation keeps the cold out in the cab area too.

* Maximum values. Further technical data can be found in the layout overview on page 38/39.

Flexibility and comfort are key factors when it comes to motorhoming. The latest generation of the HYMER Exsis-i combines both in exceptionally elegant form. See for yourself!

Further standard highlights:
www.hymer.com/exsis-i/standard

Brightness by day and night

The large crank-handle rooflight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. At night, uniform lighting is provided by the integrated LED spotlights.

Handy exterior light

The high-power LED awning light with rain deflector comes as standard. It lights up a wide area outside the entrance door so you can exit the vehicle safely in the dark.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Safe handling

All kitchen drawers are equipped with ball bearings for an ultra-smooth action. They feature high-quality Servo-Soft closing and one-hand push-locks which prevent the drawers from opening and rattling while the vehicle is in motion.

Comfortable front berth

The fold-down bed above the cab also offers maximum freedom of movement and headroom. It offers a comfortable sleeping space extending across the entire width of 1.50 metres – even in the front part of the vehicle.

Superior sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear ensure good ventilation.

Great view, no thermal bridges

The high-quality Seitz-S7 framed windows are fitted with acrylic double glazing for optimal thermal insulation. The powder-coated aluminium frame is particularly lightweight and sturdy and is likewise equipped with an insulating layer to protect against thermal bridging.

Truma Combi 6 heater

Installed as standard, the 6,000W Truma Combi 6 heater easily maintains a cosy temperature throughout the interior even when it's freezing outside. Its central location under the seating area means that the heat is distributed optimally throughout the vehicle.

Wired for radio and TV

Loudspeakers in the sleeping and living area, wiring and sockets and a radio aerial are factory-fitted in every vehicle. All you need to do is plug in and play!

Plenty of sockets

Four 230V and two 12V sockets provide plenty of power for your appliances. The seating area, bathroom and kitchen have points for 230V appliances, while 12V appliances can be plugged in at the TV point and dashboard.

Handy bathroom storage

Generous bathroom cabinets with plenty of storage space make it easy to keep all your accessories within reach. The shelves are fitted with straps as standard to keep small and fragile items secure while the vehicle is in motion.

Optimal drainage

All shower trays are equipped with two plug holes in opposite corners. That way the water can flow away quickly and easily even if you're parked on uneven or sloping ground.

Illustrations for example purposes only.

Living comfort

Ample space, light and quality of life.

1 Perfect seating combination

Lounge seating area with Etna imitation leather fabric design and large, moveable table in the Exsis-i 588.

2 Warm ambience

L-shaped bench seat in the Exsis-i 414 with Castello fabric design and warm Trentino pear wood furniture finish.

3 Watch TV in comfort

The optional height-adjustable TV bracket in the Exsis-i 688 is perfect for a relaxing evening's viewing.

4 Superb interior concept

Exsis-i 688 with pilot seats swivelled towards the seating group and large fold-down bed above the cab.

Step aboard the Exsis-i with a virtual tour:

www.hymer.com/exsis-i/360

Sleeping comfort

Dream interiors where the last thing you'll want to do is sleep.

1 Wide reclining surface

Large twin beds with standard intermediate cushion for extra width at the top end – seen here in the Exsis-i 578.

2 A good night's rest

Comfortable single bed in the Exsis-i 524, also optionally available with bunk bed.

3 Reader-friendly

Queen-size bed in the Exsis-i 698 in its daytime and reading position: pushed up close to the wall with upright head end.

5 Always to hand

Wardrobes under the twin beds allow ready access to your holiday wear.

Kitchen comfort

Everything the creative cook desires.

1 Ideal organisation

Large side kitchen with flexible drawer partitions and extendible worktop in Trentino pear wood furniture finish – seen here in the Exsis-i 678.

2 Extra-deep drawers

Kitchen outfit featuring deep drawers and standard 3-ring hob with removable grid and knobs for easy cleaning.

3 Room to spread out

The worktop can be extended at a stroke to give you more space to put things, thanks to this clever design.

4 Jumbo or Smart

The jumbo refrigerator (150 litre) can be supplied on request – except in the Exsis-i 414 and 474m, which are optionally available with the Smart-Tower refrigerator (142 litre).

Bathroom comfort

1 Clearly arranged

Comfort bathroom featuring wide bench toilet and shower opposite with two plug holes and optional wooden deck.

3 Pull-out washbasin

The washbasin consists of high-quality Cool Glass material and can be easily extended and retracted (depending on layout).

2 Well organised

Variable, open-style premium bathroom/toilet with practical stowage space above the bench toilet, as seen here in the Exsis-i 504.

4 Ideally equipped

The compact bathroom in the Exsis-i 414 and 474 has a pull-out Cool Glass washbasin and a bathroom cabinet neatly concealed behind the mirror.

Extra comfort to order

Want to add a more personal touch of class to your HYMER motorhome? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your HYMER dealer will be happy to provide details of the full range.

2

1

3

4

5

6

1 Distinctive lightness

The high-quality aluminium rims lend the vehicle extra individuality and class on the outside too. Their low weight not only increases the payload reserves but also improves the effectiveness of the suspension for an easier drive.

2 Perfect privacy

The electric windscreen roller blind provides a convenient means of darkening the cab area. As an additional shield against cold and direct sunlight, it also helps ensure a comfortable temperature in the interior all year round.

3 Optimal leak-tightness

The vehicle roof is made from robust aluminium and has no longitudinal seams for water to penetrate through from above. The GRP coating provides additional weather and hail protection, preventing mechanical damage to the roof surface.

4 High-tech in the kitchen

The Thetford hob and oven combination offers home-from-home cooking convenience. From baking to grilling to cooking, it caters to every culinary desire – and the individual components are very easy to clean.

5 Relaxed driving

The Fiat Comfort-Matic combines the precision of a 6-speed gearbox with the comfort of an automatic. The gears can be changed either manually, by tipping the selector lever, or fully automatically – with optimised function and fuel consumption.

6 Electric fold-down bed

The 1.50 metre wide fold-down bed above the cab can be raised and lowered electrically with minimal effort. The switch for the jolt-free electric drive is integrated in the front of the bed and can be reached from the living space with ease.

Illustrations for example purposes only.

 Motorhomes of the Year 2014:
 1st place in the category
 "Integrated above EUR 70,000"

The HYMER B-Class

The benchmark in motorhoming circles.

With more than 55,000 vehicles sold, the HYMER B-Class has repeatedly set standards in all categories and has delighted motorhome enthusiasts throughout Europe for over 30 years. These best-selling models topped the readers' poll of the "promobil" trade magazine a grand total of 29 times. The HYMER B-Class is justifiably in the premier class of motorhome construction and is regarded as the absolute benchmark for integrated

motorhomes. The basic B-Class concept is based on the patented HYMER PUAL body, which ensures a solid construction and perfect heat insulation. The HYMER B-Class stands for a harmonious, exclusive design and standard equipment which is well above average. That includes for example the safety equipment and AL-KO frame, GRP roof coating and floor and lots more besides. Discover Europe's number 1 motorhome!

Profile *
Weight: 3,500 – 4,500 kg
Length: 5.99 – 7.50 m
Width: 2.35 m
Height: 2.90 m
Berths: 3 – 5

HYMER B-Class highlights

Traditionally a step ahead.

More than 55,000 B-Class models produced

All-round protection thanks to GRP roof coating

On Fiat-Ducato chassis with 130 hp

Large garage doors left and right

Multi-purpose double floor: more storage space, better insulation

AL-KO lightweight frame with independent suspension

For more than 30 years, the HYMER B-Class has repeatedly set new standards in terms of comfort features. A good tradition which is also continued in this model year with the inclusion of numerous superior, exclusive features in the comprehensive standard package.

Tailor-made undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Optimal leak-tightness

The vehicle roof is made from robust aluminium and has no longitudinal seams for water to penetrate through from above. The GRP coating provides additional weather and hail protection, preventing mechanical damage to the roof surface.

Lasting protection from below

The indestructible GRP underbody makes the vehicles practically immune to weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid foundation for the entire service life of your motorhome.

Multi-purpose double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multi-purpose double floor with hot-air nozzles between the upper floor surface (3 cm) and underfloor (3.5 cm).

Practical aids

The durable driver-side door in the HYMER B-Class is standardly equipped with electric windows and convenient step lighting.

* Maximum values. Further technical data can be found in the layout overview on page 56/57.

High quality and safety standards, continual technical innovations and well above-average standard equipment are what makes the HYMER B-Class so unique and successful.

Further standard highlights:
www.hymer.com/b-klasse/standard

Great view, no thermal bridges

The high-quality Seitz-S7 framed windows are fitted with acrylic double glazing for optimal thermal insulation. The powder-coated aluminium frame is particularly lightweight and sturdy and is likewise equipped with an insulating layer to protect against thermal bridging.

Double-sided garage access

The garage comes with full-height doors on both sides of the vehicle as standard. That way, it can be loaded from both sides and luggage remains accessible from the outside at all times. Payloads of up to 450 kilograms can be easily accommodated.

Protection from unwanted guests

Want to enjoy a nice summer's evening with the door open or air the motorhome? No problem. The integrated fly screen door at the entrance keeps all winged intruders from entering the interior.

Safe handling

All kitchen drawers are equipped with ball bearings for an ultra-smooth action. They feature high-quality Servo-Soft closing and one-hand push-locks which prevent the drawers from opening and rattling while the vehicle is in motion.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Brightness by day and night

The large crank-handle rooflight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. At night, uniform lighting is provided by the integrated LED spotlights.

Flexible position

The luxury table with real wood frame can be adjusted vertically and horizontally and can also be rotated 360 degrees about its own axis. That way it can be optimally reached from any point and in any situation – and is never in the way.

TV-ready

In the new HYMER B-Class, the bracket for the TFT monitor is already factory-fitted. That way you can enjoy a cosy evening's viewing with the monitor of your choice.

Handy multi-taskers

The swivelling and height-adjustable lounge seats in the cab are fully upholstered in the same fabric as the living area. Their exceptional seating comfort and large, tiltable arm rests are ideal for settling down to watch TV and for relaxed driving.

Extra-large sleeping surface

The large twin beds in the rear can be joined together in an instant to create a single continuous sleeping area. Simply position the pull-out ladder between the beds, place the additional cushion on top and hey presto!

Precision support

The HYMER comfort sleeping system with high-quality cup slatted bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

Perfect privacy

To darken the front of the vehicle, the Hymermobil has concertina blinds all round the cab area. The high-quality curtain material and colour-coordinated curtain rail create a warm living room atmosphere while ensuring optimal privacy.

Illustrations for example purposes only.

Living comfort

Designed for well-being.

1 Swivel pilot seats

Lounge seating group with L-shaped bench seat and swivel pilot seats, here in the B 678 with Etna fabric design.

2 Cosy living area

The generous living area of the B 594 with warm Trentino pear wood furniture finish and Castello fabric design.

3 Space for get-togethers

The lounge seating unit with bench seat opposite gives you plenty of space around the adjustable table.

4 A home for your shoes

The comfortable bench seat of the B 678 with practical shoe compartment, here in the new Etna fabric design.

Step aboard the B-Class with a virtual tour:

www.hymer.com/b-klasse/360

Sleeping comfort

An oasis of peace for sleepyheads.

1 Space overhead

The numerous overhead cupboards and the positioning of the twin beds leaves a huge amount of headroom in the B 678.

2 Ideal for reading

Stylish queen-size bed in the B 698 adjusted to the reading position with angled head end and neck supports on the rear wall.

3 Space for clothes

Easily accessible rear transverse bed with tall fitted wardrobe in the B 594.

4 Easy access

The fold-down bed with the 1.50 metre wide reclining surface can be lowered right down, allowing much easier access and providing maximum freedom of movement and headroom.

Kitchen comfort

Everything you need to prepare the perfect meal.

1 A joy to cook in

Elegantly curved kitchen unit with large work surface and extra-deep drawers in the B 678.

2 Everything in its place

All neat and tidy – the wide kitchenette in the B 578 with shelving and paper towel holder on the kitchen cabinet wall.

3 Practical cover

Attractive and practical – the cover for the large sink doubles as a chopping board with integrated drain.

4 Space for dishes

Plenty of space for kitchen utensils in the overhead storage cabinets and the illuminated overhead glass display cabinet of the B 678.

Bathroom comfort

The generous bathroom area leaves nothing to be desired.

1 Greater privacy

You can shut the bathroom off completely from the living area or close the bathroom/toilet and shower separately – anything is possible here.

2 Amazing space

Separable shower in the comfort bathroom of the B 578 with generous headroom and ample freedom of movement.

3 High-quality washbasin

High-quality Cool Glass sink fitted as standard – seen here in the bathroom of the B 678.

4 Airing and drying

Separate shower in the B 678 with towel holder and useful garment rail for airing and drying clothes.

Extra comfort to order

Want to add a more personal touch of class to your HYMER motorhome? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your HYMER dealer will be happy to provide details of the full range.

1

2

3

4

5

6

1 Hot-water heating

As a high-quality alternative to hot air heating, the ALDE hot water heating system with its numerous convectors provides a particularly pleasant warmth. The system is also available with an energy-saving heat exchanger on request.

2 Relaxed driving

The Fiat Comfort-Matic combines the precision of a 6-speed gearbox with the comfort of an automatic. The gears can be changed either manually, by tipping the selector lever, or fully automatically – with optimised function and fuel consumption.

3 Perfect privacy

The electric windscreen roller blind provides a convenient means of darkening the cab area. As an additional shield against cold and direct sunlight, it also helps ensure a comfortable temperature in the interior all year round.

4 High-tech in the kitchen

The full-height TEC Tower is the ultimate in modern motorhome kitchen technology. Combining a fridge freezer (160 litres), oven and grill in a timeless elegant design, it scores both on looks and versatility.

5 Electric fold-down bed

The 1.50 metre wide fold-down bed above the cab can be raised and lowered electrically with minimal effort. The switch for the jolt-free electric drive is integrated in the front of the bed and can be reached from the living space with ease.

6 Clear view in winter

The heated front windscreen consists of two panes with almost invisible wire heating elements, ensuring a clear view within minutes when the engine is switched on.

Illustrations for example purposes only.

Motorhomes of the Year 2014:
3rd place in the category
"Integrated above EUR 70,000"

The HYMER B-Class SL

Uncompromising comfort.

Welcome to the elite of modern motorhoming – with the exclusive HYMER B-Class SL. With a length of up to 8.86 metres and technical equipment to match, it offers the independence, comfort and look of a Liner – at the price of a conventional integrated model. Of the many special features of this model range, the overwhelming space is the first thing that stands out. Extra-large comfort seating groups and a headroom of 2.15 metres characterise the living area of all six layouts. This is complemented by

maximum room for movement, above-average standard equipment with a 148 hp engine on a Fiat-Ducato Maxi chassis, 160-Ah living area battery, HYMER sleeping comfort system and a huge rear garage. The package also includes a GRP floor and roof coating, ALDE hot water heater and a comprehensive safety package. With the HYMER B-Class SL, you can enjoy comfort and self-sufficiency in equal measure!

Profile *

Weight: 4,500 – 5,000 kg

Length: 7.63 m – 8.86 m

Width: 2.35 m

Height: 3.15 m

Berths: 4 – 6

HYMER B-Class SL Highlights

Superlative comfort.

* Maximum values. Further technical data can be found in the layout overview on page 74/75.

Travelling in a HYMER B-Class SL makes you feel like you're in a Liner. Here, uncompromising luxury comes as part of the package. The main equipment features are shown in this overview. Why not experience them for yourself – at your HYMER dealer!

Tailor-made undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Unobstructed access

The engine compartment beneath the windscreen opens wide and easily for convenient checking and replenishment of the oil, coolant and windscreen washer fluid. The bulbs for the headlights are also readily accessible and can be replaced in a moment.

Parking space for bulky items

The huge rear garage easily accommodates several bikes side-by-side. It also provides optimal storage for scooters or heavy, bulky items of luggage – up to an impressive 450-kilo laden weight.

Lasting protection from below

The indestructible GRP underbody makes the vehicles practically immune to weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid foundation for the entire service life of your motorhome.

Optimal leak-tightness

The vehicle roof is made from robust aluminium and has no longitudinal seams for water to penetrate through from above. The GRP coating provides additional weather and hail protection, preventing mechanical damage to the roof surface.

Remote central locking

The driver's door, entrance door and both garage doors can be conveniently opened and closed via the radio remote control on the key. The central locking system also ensures that none of the doors are left accidentally unlocked.

High quality and safety standards, continual technical innovations and well above-average standard equipment are what makes the HYMER B-Class so unique and successful.

Further standard highlights:
www.hymer.com/b-sl/standard

Cab air conditioning

The automatic front air conditioning system in the centre console of the dashboard ensures a pleasant interior climate while driving. It can be switched on both automatically and manually.

Comfort cruise control

Comfortable and safe at a steady, controlled speed – courtesy of the onboard cruise control system.

Handy multi-taskers

The swivelling and height-adjustable lounge seats in the cab are fully upholstered in the same fabric as the living area. With their very comfortable seats and large tilting armrests, they invite you to spend a cosy evening in front of the TV and relaxed driving.

Signposts in the dark

The night lights in the plinth area help you find your way around in the dark without waking fellow travellers, e.g. when going to the toilet. The subtle LED spotlights can be switched on and off easily from all beds.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Brightness by day and night

The large crank-handle rooflight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. At night, uniform lighting is provided by the integrated LED spotlights.

Secure power supply

The extremely powerful 160 Ah living area battery is installed in the multi-functional double floor near the heater. If required, the on-board supply can be supplemented with a second gel battery of the same size, giving you a total available battery power of 320 Ah.

Hot-water heating

The ALDE hot water heating system supplies a very pleasant warmth and is equipped with convectors at various points including the dashboard. The system is also equipped as standard with an energy-saving heat exchanger.

Fresh air at your fingertips

The modern Seitz-S7 framed windows can be conveniently operated with one hand. Unlike with conventional windows, opening and closing doesn't require several locking levers, but just one central handle.

Unique seating comfort

Only the best upholstery foams and fabrics are used in the large, comfortable seating groups. All seat surfaces and backrests are anatomically shaped. The generous L-shaped bench seat ranges from 1.35 to 1.95 metres in length depending on the layout.

Precision support

The HYMER comfort sleeping system with high-quality cup slatted bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

Ceramic convenience

All bathrooms are equipped with high-quality ceramic toilets – just like at home. Rollable for convenient transportation, the cassette tank is also readily accessible for easy removal and emptying.

Illustrations for example purposes only.

Living comfort

Live like you do in your own four walls – only on wheels!

1 Comfortable seating

The furniture suite in the B 778 SL is covered in the Paradiso fabric design. The fold-down bed can be optionally replaced with front storage cupboards and the right-hand bench seat with a sideboard.

2 Long bench seats

Comfort seating group in the B 778 SL with 1.65-metre long L-shaped seating group and extra-wide opposing bench seat.

3 Space for get-togethers

The 1.95-metre wide seating group in the new B 878 SL layout – in Trentino pear wood furniture finish and leather pebble fabric design.

4 Attractive sideboard

Attractive sideboard with control panel, glass cabinet and bar – seen here in the entrance area of the B 778 SL.

3

Bathroom comfort

Generously and conveniently designed bathrooms with a touch of class.

1 Ceramic toilet seat

The bathroom in the B 778 SL impresses with its large standing area and ceramic toilet seat. A sliding door separates the bathroom and living area.

2 High-quality equipment

The comfort bathroom in the B 674 SL is equipped with a separable shower and a high-quality, porcelain-look wash-basin in Cool Glass.

3 Genuine glass door

The shower in the bathroom of the B 778 SL is very generously designed. The swing door made of superior genuine glass is a visual highlight.

4 Attractive to the last detail

A wealth of attractive, practical details lend the bathroom a pleasant atmosphere that makes it a joy to use.

4

Extra comfort to order

Want to add a more personal touch of class to your HYMER motorhome? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your HYMER dealer will be happy to provide details of the full range.

1

2

3

5

6

4

1 Flexible cooking

The hybrid cooker has three cooking areas: a Ceran hob (230 V) and two gas rings. This has the advantage that you don't have to use up all your gas reserves when cooking, but can switch to electric just like at home.

2 Added-value toilet

With the aid of an optional pump system, the toilet cartridge can be emptied simply and hygienically into a frost-protected 65-litre black water tank. That way you can park your motorhome for longer periods without having to use a disposal point.

3 Instant protection

The electric windscreen roller blind provides a convenient means of darkening the cab area. As an additional shield against cold and direct sunlight, it also helps ensure a comfortable temperature in the interior all year round.

4 Easy-clean kitchen

The elegant and sturdy worktop in high-quality solid material stays looking good even under the toughest of conditions. It is extremely easy to keep clean and provides a pleasant surface to work on.

5 Electric fold-down bed

The 1.50 metre wide fold-down bed above the cab can be raised and lowered electrically with minimal effort. The switch for the jolt-free electric drive is integrated in the front of the bed and can be reached from the living space with ease.

6 Mobile TV entertainment

The modern LED television set with 22-inch screen is optimally configured for motorhome requirements. Flat and lightweight, bright and energy-saving, anti-glare and anti-reflective, it provides great entertainment in the living area.

Illustrations for example purposes only.

Standard chassis:
Mercedes Sprinter

The perfect combination
of Mercedes-Benz chassis
and HYMER technology
for motorhomes

The HYMER StarLine S

Better "by star".

The HYMER B-Class Mercedes justifiably bears the name StarLine. The exclusive motorhome scores with its comprehensive standard equipment and well planned spatial designs and meets the highest motorhoming standards. The combination of Mercedes-Benz chassis and engine power plus the typical HYMER high-tech body in PUAL design, GRP roof and floor and multi-functional double floor give this model a distinctive edge. The HYMER StarLine S

impresses with a 190 hp engine, 7G-Tronic automatic transmission and rear-wheel drive as standard. The premium motorhome has generously dimensioned living and storage space, perfect driving comfort and numerous exclusive standard highlights. And not only that: when it comes to road-holding, flexibility and range, interior ambience, winter hardiness and heating comfort, the HYMER StarLine S definitely gets an extra star.

Profile *
Weight: 5,300 kg
Length: 7.97 m
Width: 2.35 m
Height: 3.07 m
Berths: 4

HYMER StarLine S highlights

Premium integrated model with exclusive comfort.

Hot water heating with heat exchanger

19 inch LED flat-screen incl. DVD drive

Electric roller blinds on front windscreen

1 ton payload

7G-TRONIC automatic transmission

Mercedes-Benz Sprinter with 190 hp

Experience new dimensions of comfort and safety! The HYMER StarLine S on a Mercedes-Benz chassis meets the highest motorhoming standards. As a “star-rated B-Class”, it offers more living and storage space, greater independence and improved driving comfort – now with even more exclusive standard highlights.

Extra-high driving dynamics

The high-performance 6-cylinder diesel engine from Mercedes-Benz with 140 kW / 190 hp gives you even more power on the road – ideal for effortless acceleration and mountain journeys.

Excellent road handling

Even under full load, the Mercedes-Benz rear-wheel drive guarantees very good climbing power and optimal traction as the weight of the body is balanced over the drive axle. It also improves handling thanks to a tighter turning circle.

Practical seat lifts

The electrically powered height-adjustable seat lift for driver and passenger is a very practical aid. Depending on requirements, it allows the driver and passenger seats to be vertically adjusted to ensure safe, comfortable travel for everyone on board.

Even gentler gear changes

With the new, fuel-saving 7-gear automatic transmission from Mercedes-Benz, gear changes are barely noticeable. The improvement on the standard version is pleasantly noticeable on hill climbs in particular.

Comfort cruise control

Comfortable and safe at a steady, controlled speed – courtesy of the onboard cruise control system. If the set speed is exceeded, the integrated Speedtronic alerts the driver.

Cab air conditioning

The electronically controlled front AC system ensures pleasant temperatures when driving.

* Maximum values. Further technical data can be found in the layout overview on page 92/93.

The HYMER StarLine S aims to exceed the normal standards of technology and comfort. Many exclusive equipment features are therefore already included in the standard package – now with even more highlights than ever before.

Further standard highlights:
www.hymer.com/starline/standard

Optimal leak-tightness

The vehicle roof is made from robust aluminium and has no longitudinal seams for water to penetrate through from above. The GRP coating provides additional weather and hail protection, preventing mechanical damage to the roof surface.

Great view, no thermal bridges

The high-quality Seitz-S7 framed windows are fitted with acrylic double glazing for optimal thermal insulation. The powder-coated aluminium frame is particularly lightweight and sturdy and is likewise equipped with an insulating layer to protect against thermal bridging.

Multi-purpose double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multi-purpose double floor with hot-air nozzles between the upper floor surface (3 cm) and underfloor (3.5 cm).

Greater independence

The large water tanks mean you can go further before you have to fill up again, giving you more freedom and spontaneity. The fresh water tank in the double floor holds 170 litres, the grey water tank 140 litres.

Signposts in the dark

The night lights in the plinth area help you find your way around in the dark without waking fellow travellers, e.g. when going to the toilet. The subtle LED spotlights can be switched on and off easily from all beds.

Plenty of chilling space

The jumbo refrigerator is part of the standard kitchen equipment. With a capacity of 160 litres and a separate freezer compartment, it keeps even large quantities of groceries fresh with ease.

Lasting protection from below

The indestructible GRP underbody makes the vehicles practically immune to weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid foundation for the entire service life of your motorhome.

Insulating glass in the cab

Double-glazed windows in the driver's door and on the passenger side ensure added thermal protection. They also prevent the windows from steaming up in case of increased humidity in the interior as well as reducing road noise.

Instant protection

The electric windscreen roller blind provides a convenient means of darkening the cab area. As an additional shield against cold and direct sunlight, it also helps ensure a comfortable temperature in the interior all year round.

Hot-water heating

The ALDE hot water heating system supplies a very pleasant warmth and is equipped with convectors at various points including the dashboard. The system is also equipped as standard with an energy-saving heat exchanger.

Safe 230V operation

The Waeco sine wave inverter provides a reliable continuous output of 1,800 watts for the 230V on-board mains supply. Thanks to the mains priority circuit with external power supply and "sleep mode" with consumers switched off, it saves energy and relieves the on-board battery.

Illustrations for example purposes only.

Living comfort

The ultimate in feel-good design.

1 Stylish leather design

The seating combination of the StarLine 680 S is presented here in an exquisite leather pebble design, coordinating perfectly with the stylish, high-gloss furniture doors.

2 Like living in paradise

View from the rear to the generous living area of the StarLine 680 S with overhead storage cupboards at the front – here in the Paradiso fabric design.

3 Luxury adjustable table

The StarLine S has a luxury table with a real wooden frame. The 360-degree rotatable table can be adjusted vertically or horizontally.

4 Safe in the dark

The ergonomic, illuminated entry handle ensures a safe entrance and exit even in the dark.

of sweet dreams.*

1 Comfortable sleeping quarters

Sleeping area in the rear of the StarLine 680 S with twin beds and all-round overhead storage cupboards.

2

2 Ample headroom

1.50-metre wide, fully usable reclining surface on lowered fold-down bed with up to 1.00 metre headroom.

3

3 Easy access

The twin beds in the StarLine 680 S are accessible via fixed steps with an extra-large surface, making it safe and easy to get in and out.

Kitchen comfort

1

A paradise for ambitious cooks.

2

1 **Elegant down to the last detail**

Elegant kitchen unit in the StarLine 680 S with large, deep work surface and semi-circular ceiling-height glass cabinet.

2 **Fresh provisions guaranteed**

The 160-litre Jumbo refrigerator with separate freezer compartment offers plenty of space for food supplies.

3 **Easy-care surface**

The superior solid-surface worktop is very easy to keep clean and provides a pleasant surface to work on.

3

Bathroom comfort

For perfect grooming on holiday.

1

1 Separable areas

You can shut the bathroom off completely from the living area or close the bathroom/toilet and shower separately – anything is possible here.

2 Home comforts

The bathroom of the StarLine S is equipped with a high-quality ceramic toilet – just like at home.

2

3 Stylish glass design

The high-quality washbasin in superior Cool Glass is attractive, extremely sturdy and durable. It looks and feels almost like porcelain.

3

Extra comfort to order

From comfortable to luxurious, the HYMER StarLine S offers a large number of additional equipment options for customising your vehicle. These pages show only a small selection – you can find out more from your HYMER dealer.

1

2

3

1 Electric fold-down bed

The 1.50 metre wide fold-down bed above the cab can be raised and lowered electrically with minimal effort. The switch for the jolt-free electric drive is integrated in the front of the bed and can be reached from the living space with ease.

2 Room for five passengers

The additional bench seat next to the entrance door of the StarLine 680 S and 690 S layouts is available on request in a special design. It can be easily converted into a fifth seat with an integrated three-point seatbelt.

3 Safe storage for valuables

Installed out of sight in the multi-functional double floor, the optional mini-safe protects money, jewellery and documents from unauthorised access. The small but very robust safe is firmly screwed to the floor of the vehicle and occupies one entire floor compartment.

5

6

4

4 Safe manoeuvring

The reversing camera at the rear monitors the area behind the motorhome across its entire width and transmits the image to the 7-inch colour monitor in the cab. Its integrated heater ensures a clear view in winter in case of ice and snow.

5 Rear air suspension

The full air suspension of the rear axle ensures a smooth, jolt-free drive. It keeps the vehicle in a horizontal position whatever the load. The rear can be raised or lowered for driving over ramps or for loading.

6 High-tech in the kitchen

The full-height TEC Tower is the ultimate in modern motorhome kitchen technology. Combining a fridge freezer (160 litres), oven and grill in a timelessly elegant design, it scores both on looks and versatility.

HYMER original parts & accessories

A perfect match.

The new HYMER E-Bike

Whether for the campsite, city shopping or more demanding cycling tours, the new HYMER E-Bike gives you infinite mobility. The 20-inch HYMER E-Bike is supplied fully equipped. Among the items included in the price are a large battery (BOSCH GEN 2 Active Line 400 Wh), sprung seat post, Ortlieb bag in HYMER

design with Quick Snap fastening and ABUS combination lock. Besides a dead weight of just 21 kilos, the HYMER E-Bike boasts ergonomic grips, wide tyres, folding pedals, folding handlebars and a battery range of up to 105 km plus LED lights, making it a genuine premium product.

Discover the wide range of innovative solutions available in the categories interior, exterior, chassis system, travel and transportation. With HYMER original accessories, you can rest assured you've made the right choice, i.e. the right fit, impeccable workmanship and original quality.

Lasting protection

The HYMER nano-coating is a high-performance two-component paint sealant. It provides lasting protection for your paintwork and makes it quicker and easier to clean. That way, your vehicle will keep its shine – and its value – for a long time to come.

Well covered

You can tell an original HYMER seat cover from its optimal fit. The covers are machine-washable with a pocket at the back, and are available in beige and graphite.

No more soakings

The high-quality HYMER golf umbrella shakes dry in an instant thanks to its Teflon coating, ready for stowing back in the vehicle.

Windscreen cover

Provides sun protection and privacy. Ultra-light, weather-resistant PVC-coated mesh fabric. Fits perfectly and looks great.

No more detours

Professional, mobile navigation system for motorhomes and caravans from HYMER and Tom-Tom, including integrated ADAC site and camping guide plus free lifetime map updates.

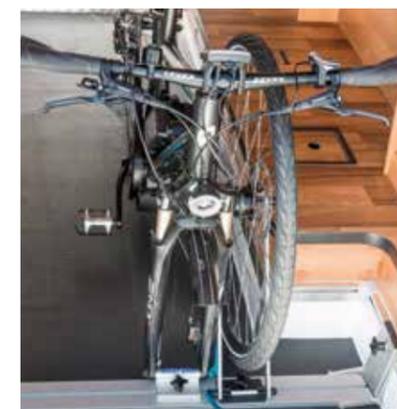

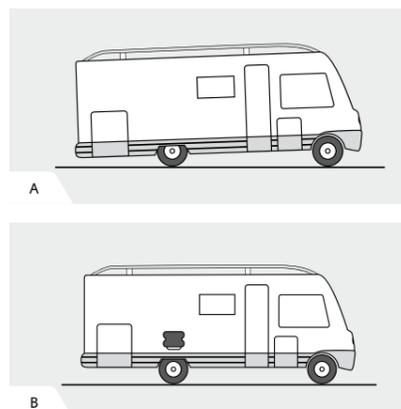

A perfect fit

Cut-to-fit, high-quality front seat floor mats made from polypropylene tufted velour with nubuck edging. Stamped with the Original HYMER branding.

An individual touch

With their simple elegance and huge load-bearing capacity, HYMER aluminium rims by Goldschmitt not only enhance the appearance of your Hypermobil, but are also ideal for increasing the weight rating.

On an even keel

(A) If your HYMER motorhome is exposed to too much strain, e.g. due to heavy loads, this can lead to the situation pictured here. (B) The additional air springs from Goldschmitt raise the rear of the vehicle to ensure adequate suspension travel.

Standing firm

The hydraulic corner steadies can be used to level and stabilise the motorhome fully automatically when parked.

All on board ...

... Thanks to the flexible garage space management system specially developed for HYMER and featuring a full-extension heavy-duty slide. That way you can keep the garage well organised and no longer have the hassle of climbing inside for loading and unloading.

Don't forget your bike!

Exclusive bicycle rack system for the HYMER rear garage. Takes just seconds to install. Probably the smallest and lightest bike rack in the motorhome sector, it manages without the usual support rail.

Winterproof

The 3-part interior insulation for the cab consists of an 8 mm thick insulating foam mat which seals tight to the contours of the window. The mats have rubber suction pads for quick assembly and removal.

Wrapped up warm

The new super-soft and extra-large blanket from Zoeppritz in the colour Smoke is washable and dryer-safe.

Like sleeping on air

The new Visco-Elastic foam specially developed for the HYMER mattress topper is air-permeable and moulds to your body at the slightest resistance. This produces a pressure-relieving effect, guaranteeing improved blood circulation and sleeping comfort over longer periods.

Made to measure

You can tell an original HYMER fitted sheet from its optimal fit. Available for all bed versions, the sheet is pleasantly soft to the touch and is washable at 60 degrees and dryer-safe.

Ready for the slopes

The innovative ski compartment is ideal for secure transportation of all your skiing or snowboarding equipment (available from Spring 2015).

Rear vision

The new reversing camera is elegantly integrated into the third brake light and painted in the same colour as the vehicle. Thanks to infra-red sensors, it ensures optimal visibility even at night (available from Spring 2015).

HYMER original parts and accessories are not available direct from the factory, but are ordered and retrofitted exclusively via your HYMER dealer.

Note

This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER dealers about the current product and series status.

Some vehicles are shown with optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER. The details of scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/- 5%) are possible and permissible.

These data comply with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER dealer will gladly provide information on any changes and the standard scope of delivery.
