Diversity by precision

Dear Globetrotter, Dear Weekend Trippers,

Our HYMERCAR was designed for all those who are bankers during the week and surfers at the weekend. For urban dwellers who need a regular unrestricted view of the star-studded sky. For perfectionists who also understand the art of being a free spirit. For (family) planners and couples with kids.

Our HYMERCAR offers you an incredible diversity of possibilities. Its compact size means it is just as manoeuvrable in everyday traffic as it is along narrow coast roads. It's up to you to decide whether you want to listen to the nightly concert of crickets from inside or in the pop-top. Do you love cruising with a modern automatic transmission? Or do you prefer the classic variant with a manual gearbox? Decide for yourself. No matter if you choose a Fiat or a Mercedes chassis, their diversity and unique quality leave nothing to be desired.

The precision of our employees in Bad Waldsee and their attention to detail offer you unlimited camping comfort. The striving for perfection is visible in many refinements in the HYMERCAR. At HYMER, we work with great joy and commitment by day and prefer to sleep on genuine HYMER feel-good mattresses at night. The well-tempered interior with its stylish furnishings and its high degree of practical details inspires us. This is why we have created a totally uncompromising level of standard equipment for you. It meets the highest requirements regarding precision.

Yours sincerely,

K. Berg

Karsten Berg
Head of Sales HYMERCAR

Information

Important information
Every change to the original factory condition of your vehicle can result in an impairment to driving and road safety.

Original spare parts and accessories recommended by Hymer GmbH & Co. KG have been developed specifically for your vehicle and approved by us. Your HYMERCAR dealer offers these products. Accessories, installed, attached and conversion parts not approved by Hymer GmbH & Co. KG can result in damage to the vehicle and can impair on road safety. Even if a part features a certificate from an approval official, a national type approval or design certification, this does not provide a guarantee for the composition of the product.

Please understand that we cannot assume any liability for damage caused by products not approved by Hymer GmbH & Co. KG or due to unauthorised modifications.

Information on weight are approximate. The load capacity specified in the price list decreases by the weights specified in the price list when installing optional equipment.

Deviations as part of factory tolerances are possible and acceptable in the specifications regarding the scope of delivery, dimensions and weights of the vehicle. The information corresponds to information available at the time of printing and meets European harmonisation requirements. These may change before purchase or delivery of the vehicle. Your HYMERCAR dealer would be happy to provide you with information on the standard scope of delivery and any changes.

Please ensure that you observe the prescribed axle load when installing special parts attached to the rear of the vehicle, such as a motorcycle rack or trailer coupling.

The prices specified for optional equipment only apply as part of new production of a series vehicle. Retrofitting certain optional equipment articles may not be possible in some cases or may incur substantial additional costs.

This price list contains the standard specification at the time of printing. Despite reviewing the contents, print errors may still occur. We retain the right to make changes to the equipment and products over the course of a model year. The layouts are pictured with optional equipment subject to surcharges in some cases; these are not part of the standard equipment. At a minimum, the water supply system meets the state of the art of technology for 07/2011 (2002/72/EC directive). Please look into the current product and standard specification at one of our authorised HYMERCAR dealers before signing a contract.

We retain the right to make changes to the price, design and equipment.

This price list replaces all of its predecessors.

All prices are inclusive of 20 % VAT and £ 2,000.00 "On the Road Charge" to include transportation from Germany.

Pickup
Unfortunately, we do not offer the possibility to pick up your HYMERCAR at the factory.

Information

- (f) The number of people indicated is reduced as the mass in running order increases. An increase occurs in particular in the case of a different engine from the basic variant, installation of optional equipment and the selection of a different equipment variant. Please make sure that the technically permissible total mass is not exceeded and that there is sufficient load capacity for persons and items of necessity (please check weights in the price list or check with your HYMERCAR dealer). The standard equipment includes 3 seats for the Sydney and 4 seats for vehicles with bathroom. Additional seats can be ordered as special equipment for the Sydney model. Please consider the weights of the vehicle.
- h) Mass in running order according to VO (EU) No. 1230/2012 incl. basic equipment (75 kg for driver, full fuel tank, filled water tank in driving position with 20 l, gas in an aluminium bottle at 100 % and electrical connection cable) in the standard variant. The mass in running order (as well as the possible payload or permitted passengers) changes with different engines or equipment variants or by adding optional extras. Deviations within the scope of the factory tolerances are possible and permissible.

- | Comments |
|---|
| (01) Not possible in combination with 115 HP. |
| (02) Not possible in combination with the exterior colours Lago blue, Line blue, Imperial blue, yellow, Profondo red, Tiziano red or Grigio Campovolo. |
| (04) Only possible in combination with the standard tyres or Fiat tyres Code 2427, 2451 or 2452. Alternative tyres must be retrofitted with Fiat TPMS valves. |
| (05) The total height of the Fiat Ducato Maxi chassis increases by about 5 cm. |
| (06) Tow bar only possible if fitted from factory. |
| (07) Uprate to 3.85 t not possible. |
| (21) Prerequisite for vehicles with compact bathroom is the optional toilet window. |
| (30) The lifting-tilt-roof light (Heki) is not possible in combination with the sleeping roof or the roof air con. |
| (31) Not possible in combination with sleeping roof or lifting-tilt-roof light (Heki). |
| (32) The sleeping roof is only possible in combination with a 3.5 t, 3.85 t or 4.0 t chassis. |
| (33) TV pre-installation = 1 x 12 V sockets, 2 x aerial sockets as well as 1 x mains supply socket. |
| (34) TV pre-installation = 2 x 12V sockets, 3 x aerial sockets as well as 1 x mains supply socket. |
| (35) Only possible in combination with TV-preparation. |
| (36) Only possible in combination with Fiat Ducato Maxi Chassis. |
