

ERIBA Touring

2018 *The cult caravan
for individualists*

ERIBA

Bodywork and safety

Be prepared for all eventualities with ERIBA.

Streamlined tubular steel construction

Pop-top roof with 26 mm sandwich insulation and 1.95 m headroom

Low height on the road (226 cm)

High degree of driving stability with perfect roadholding characteristics

The highlights

- Streamlined tubular steel construction
- Low height on the road (226 cm)
- Chassis with independent wheel suspension and shock absorbers
- Anti-snake stabiliser with automatic overrun device and automatic reversing mechanism
- Pop-top roof with 26 mm sandwich insulation and 1.95 m of headroom
- Automatic brake adjustment
- High degree of driving stability with perfect roadholding characteristics

Air circulation

All overhead lockers have a void at the back as standard, through which warm air can circulate freely. That way major temperature variations and unwanted condensation in the interior can be avoided.

LED lighting

Energy-saving LED lights are installed throughout the vehicle for low power consumption. The LED ambient lighting is optionally available as an overhead locker trim.

Roof awning with LED

The extremely lightweight articulated awning with integrated LED light fits compactly to the curve of the roof without making the caravan any wider. The optionally available side and front sections offer additional protection from sun, wind and rain.

Softclose

All kitchen drawers are roller-mounted for an ultra-smooth action. They feature high-quality servo soft-touch closing mechanisms and one-hand push-locks which prevent the drawers from opening and rattling while the vehicle is in motion.

Space for bicycles

The optional bicycle rack accommodates two bikes securely on the drawbar, and folds back easily to allow access to the front storage area.

ERIBA Touring

The cult caravan for individualists.

ERIBA Touring caravans have acquired cult status. They are notable for their low dead weight, compact dimensions and low overall height, and their pop-top roof and superb roadholding characteristics are legendary. The vehicles come with an exclusive equipment package which ensures both comfort and maximum safety. A practical furnishing concept with a high-quality interior and an exclusive design – in the living and sleeping area, kitchen and bathroom – make travelling with the ERIBA Touring an unforgettable experience.

1.95 m headroom
thanks to ERIBA
pop-top roof

Available in two
different exterior
colours

A small-scale space sensation.
The ERIBA Touring with its pop-top roof boasts a headroom of 1.95 metres. The interior has a very welcoming feel, with cleverly designed furnishings in the warm Trentino Pear Wood furniture finish.

All seating areas can be transformed at a stroke into a comfortable bed. The spacious seat boxes provide plenty of easily accessible stowage space.

Living area and kitchen

Inspiring interior design on wheels.

More space for preparation.
The side flap acts as a worktop extension and combines with the optional sink cover with chopping board to make a large work surface.

Stowage space galore.
All fixed beds open up wide and are kept securely in position by spring struts. That way the huge bed boxes are easily accessible – both from inside the caravan and from outside through the exterior locker door on the awning side (optional extra depending on model).

Sleeping and bathroom

Charming interior concepts.

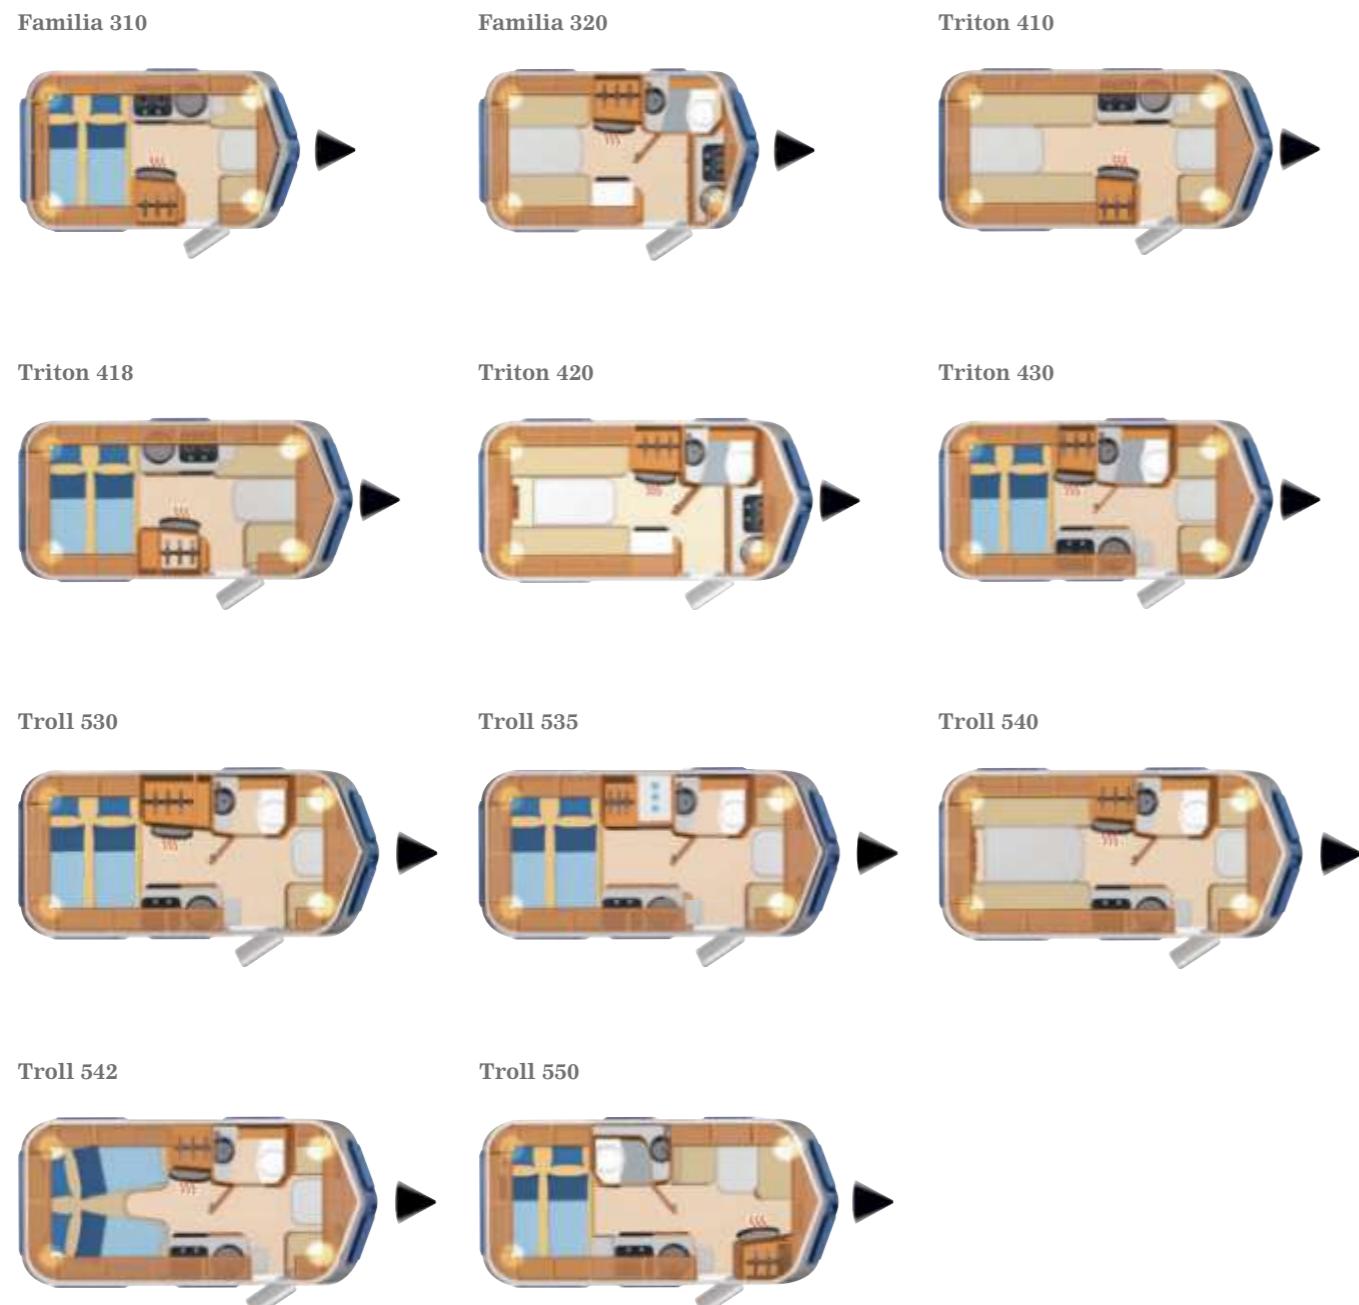

Maximum sleeping comfort.
Travelling doesn't have to mean compromising on sleeping comfort: in the ERIBA Touring, restful slumbers are guaranteed thanks to cold foam mattresses or optional innerspring mattresses with soft drill covers.

Everything in its place.
The bathroom is equipped with a height-adjustable mirror, a shelf with tensioning straps to store utensils, a towel rail and a bench toilet.

	Dimensions (LxWxH)	Mass in running order	Payload / O*	Payload / O*	Berths
Familia 310	371x200x226 cm	720 kg	180–330* kg	Single	1 1 1
