# Clearly Travelworld

GLASS REPLACEMENT FOR MOTORHOMES

**Clearly Travelworld is our new glass replacement service for our Motorhome owning customers.**

Clearly Travelworld cover all areas of glass replacement including windscreens, side glass and roof vents.

The windscreen of your motorhome is integral to the structure of your vehicle with up to 75% of the structural rigidity of the vehicle transfers through this part of the unit. So if it is damaged in anyway, you need to get it replaced or repaired immediately!

### What Clearly Travelworld can do for you

Clearly Travelworld can assist you with quotations for and the supply of all replacement front windscreens and side windows, whether plastic or glass, for any type of American (RV), Hymer, Carado, Dethleffs, Hymer Car or Niesmann + Bischoff motorhomes.

**We can deal directly with your insurance company on your behalf, and take all that hassle away from you!**

We can install a new glass product either in our service department at our new home, the Erwin Hymer Centre, is located just off J14 of the M6 near Stafford, or can travel to your location to carry out any work.

We can also supply any glass product to any repair and replacement provider in the UK. We're as flexible as you need us to be.

**For more information contact Annabel Edwards at Clearly Travelworld on 07971 545683 or email [Annabel.Edwards@motorhomes.co.uk](mailto:Annabel.Edwards@motorhomes.co.uk)**
