Layout variants “Face-to-Face”

It is possible to order the models 76 L, 77 E, 78 F, 82 E, 85 E, 88 E/EK/LF in a “Face-to-Face” layout (straight kitchen and seat bench, see code 80026 on page 26):

Standard Equipment Arto

Chassis

- Fiat Ducato
- Airbag for driver and passenger seat
- Turbo diesel engine with electronically controlled Common Rail Direct Injection
- Emission class Euro 6D-temp ([light duty homologation](#)) or Euro VI d ([heavy duty homologation](#)) with exhaust gas recirculation
- Manual 6-speed transmission
- Electronically controlled anti-lock braking system (ABS)
- ESC with hill holder and traction + and hill descent control
- Disc brakes on front and rear axle
- Electronic brake pad wear indicator
- Electronic brake force distribution (EBFD)
- Alternator 14 V / 150 A
- Battery 12 V / 95 Ah
- Tyres with steel wheel rims 225 / 75 R 16
- Tyre sealant with compressor (Fix + Go)
- Tyres on front and rear axle with traction profile, M+S designation
- Independent suspension on front and rear axle
- AL-KO-lightweight low frame chassis with maximum frame lowering (220 mm)
- Hot-dip galvanised frame elements and wide chassis (1980 mm)
- Bracing of the chassis for more driving dynamics and driving comfort by means of highly resistant hollow steel sections for along- and cross-bracings, which are screwed to the AL-KO low frame
- Fuel tank 90 l + 19l AdBlue tank
- Cup holder at the dashboard
- Dashboard with chrome rings

Driver's Cab

- Panoramic windscreen made of laminated safety glass, tinted, with sun shield
- Flush-sealed windscreen
- Laterally suspended exterior rear-view mirrors
- Original Fiat Crashbox
- Engine bonnet with large opening angle and gas pressure opening mechanism
- Belt-integrated driver and passenger seat, rotatable by 180°, armrests and lateral parts in real leather
- Height-adjustable steering wheel

Bodyshell

- Outside walls including garage doors made of torsion-resistant 2-sided-aluminium sandwich construction (30 mm) with styrofoam insulation (RTM)
- Roof in sandwich construction (30 mm), torsion-resistant with styrofoam insulation (RTM), inside aluminium, outside corrosion-free GRP High Strength X-treme including gel coat sealing
- Ceiling-to-wall connections without cold bridges, by means of highly compressed PU hard profiles
- Box structure completely without wood
- Lighting protection because of Faraday cage
- Aluminium roof profiles with rain water channel for reducing side panel soiling
- Connection of roof plate and front mask free of displacements prevents accumulation of rain water on the roof
- Side wall panel smooth, stove-enamelled white
- Front mask, fenders, wheel cases and rear panel of highly stable and corrosion-free glass fibre composite material
- Side skirts of smooth aluminium profiles, stove-enamelled white
- Heated and insulated central double floor of 290 mm height

- Water and waste water tank frost-proof integrated in the heatable double floor
- Solid entrance door with electric closing aid, double locking and window
- Exterior, electrically operated double entrance step, hidden behind a cover plate when closed
- Spacious rear garage with lighting, heatable
- Rear garage door, passenger side, with low loading height
- Rear garage floor coated with highly wear-resistant dimpled membrane
- Insulated bodyshell windows, double-glazed plastic window in outer aluminium frame with PU insulation, with pleated darkening blind and insect protection
- Garage walls covered with needle felt
- LED daytime running- and back light
- Fly screen door for entrance door
- Tie system in the garage including 4 adjustable eyelets in each rail
- Entire roof safe to walk on

Living and Sleeping

- Wall lining made of carpet
- Wear-resistant floor covering in stone tiles look
- One level floor between driver's cab and lounge
- High quality wear-resistant upholstery in 144 different combinations (plus leather for an additional charge)
- Seat cushions with high comfort thanks to the 3-layer foam concept
- Lounge table with multi-directional displacement mechanism (except for 88 B), extendable tabletop depends on model
- Block for 3-point-belt built in the lounge (not for [model 88 B](#))
- Shoe compartment in the entrance area
- Convenient storage space in double floor, accessible from the lounge area
- Solid handle covered with leather for easy entry
- Gathered roller blinds on the windows of the seating unit and sleeping area
- Spacious overhead cupboards with push-to-open system (gas pressure buffers) for maximum comfort in use
- Indirect accentuated lighting with LED-technology for lounge area (can be dimmed), rear bed and front bed
- Rear bed with lath frame and comfortable cold foam mattress
- Overhead front bed (1910 × 1320 mm) with lath frame, cold foam mattress and comfortable locking and unlocking system
- Power LED reading spots at the front and rear bed as well as in the living room
- Bed access with night lighting
- Foldable step with storage space function at bed access
- Flexible reading lights at the rear bed, 2 spot lights and a LED light-band under the front bed

Kitchen

- Embedded three-flame gas cooker with a 2.4 kw burner and electric ignition, divided glass cover, cast-iron pan supports and stationary mounted glass splashguard on the side panel
- Switch-off function for gas supply when closing the gas hob cover
- Single-lever mixer tap made of metal
- Central locking of the lower kitchen cabinets
- Kitchen drawers with pull-in mechanism
- Wide drawer handles can also be used as tea towel holder
- Mirror on wall next to kitchen
- Refrigerator 106 l, with freezer, AES automatic
- Waste bin in the lower kitchen cabinet

Bathroom and Toilet

- Spacious bathroom solutions
- High-quality bathroom door with stainless steel door handle set
- Generously sized mirror cabinet with shelf
- Shower tub made of wear-resistant GRP
- Shower grill (optionally orderable for models 77 E, 79 R/E, 82 E)
- Single-lever mixer tap for washbasin made of metal
- Shower with acrylic glass door and removable clothes rail
- Shower fitting with wall rail and height adjustable shower head
- Cassette toilet with trolley system [and ceramic bowl](#)
- Bathroom with towel rack and hook
- Roof-light with insect screen and pleated darkening blind

Heating and Water

- Centralised, heatable water disposal compartment on driver side, discharge cocks for waste water / fresh water tank with large diameter (1 1/4") for comfortable discharge
- Fresh and waste water tank in the heatable double floor, from 120 to 200 l, depending on the model, 20 l in driving mode
- Screwable water connection for the pump and the filter
- Air heating from Truma (Combi 6)
- Openings for cleaning on top for fresh and waste water tanks, accessible from the lounge area
- Integrated warm-water heater for the supply of all consuming points
- Centralized boosted water supply over silent pump including filter system
- Space for 2 × 11 kg gas bottles and for Euro 14 l gas bottles
- Heatable double floor
- Mono control crash sensor for gas pressure regulator

Electronics

- Central electric system in the garage, easy to access
- AGM battery 95 Ah
- Charging set 18 A with electronic control
- Battery control system with protection against overload and complete discharge
- 230 V CEE connection on driver's side
- Automatic fault current circuit breaker
- Centralised control panel with digital display
- 4 × 230 V sockets and 1 × 12 V socket and 2 × USB (depends on model)
- Lights (roof spots, spots under ceiling cup boards and reading spots) in LED-Technology

Important Information

Technical data Arto

- 1) The “mass in running order” according to EU directive accepted in VO (EU) no. 1230/2012 includes: the empty mass with standard equipment, driver (75 kg), filling quantities for fuel (90%), fresh water in driving mode (20 l.), 100% filled gas bottle, tool kit, Tire-fit and connecting cables. Differences as part of the manufacturer tolerance are possible and allowed.
- 2) The payload is the difference between the technically permissible laden mass and the total effective vehicle mass. Weights of the optional equipment have to be added to the “Mass in running order”.
- 3) The permissible total towing weight must not exceed 6,000 kg.
- 4) Further persons are allowed to ride along as far as the technically permissible laden mass is not exceeded and respective seats with safety belts are present.
- 5) The indication regarding the technically permissible towing weight braked represents a maximum value, which depends on the real vehicle mass incl. persons and loading. The technically permissible maximum towable mass shall not be in any case exceeded.
- 6) Weight upgrade does not raise the total towing weight. All information concerning the total towing weight is valid for a maximum incline of 12% at an uphill start.
- 7) All Arto models with Light Duty homologation with weight upgrade and/or 18" alloy wheels can only be registered in Germany with an individual approval. No COC available.

Due to the different materials, manufacturing procedures and light conditions, colour deviations can occur on bodywork and attachment parts. Colour deviations do not authorise complaints or warranty claims. All the dimensions and weights are rounded figures and can vary according to the different homologation directives!

Important information

This brochure is subject to change without notice. After the copy deadline of this price list (08/2020) changes as to models and products, floor plans, technical data, equipments, etc. may have occurred. The illustrations also contain optional features, and / or accessories which are not included in the standard equipment and decoration respectively which is not included in Niesmann+Bischoff's range of supply. Descriptions may have been garbled due to graphic conversion, photographic processing or technical reasons. All data on range of supply, appearance, performance, weights and measures, as well as fuel consumption of the vehicles are in compliance with the knowledge existing at the time of the copy deadline

and are valid for all purchase and licensing in the Federal Republic of Germany. Deviations of the values within a range of $\pm 10\%$ are possible. The measures of the mattress may slightly vary from the given bed measures. E. g. data on the capacity of the refrigerators refer to producer information. Prices for optional features are only valid when installed during production. In case of subsequent installation additional installation and servicing expenditures are accrued at cost. We reserve the right to change prices, construction and equipment without notice. With the issue of this brochure all previously issued information and price lists become void.

Your dealer:

Design diversity

Personality comes from within. The same applies to your Arto. How would you like yours to look? Would you prefer classic-chic or something a bit bolder? No matter what decision you make, you will always feel right at home, as the fabrics and materials are all of high quality.

Build your very own Arto now at:
