THE DIGITAL WORLD OF HYMER.

The "smart home" is now ubiquitous. But have you experienced a smart HYMER? With our innovative HYMER Connect digital ecosystem, you can now also control many components of your home-on-wheels while on the move. Switch on the lights, turn on the heater, preheat the water and much more – the HYMER Connect app

turns your smartphone into a remote control for your motorhome. It also gives you easy access to vehicle information such as the mileage and water-tank levels. One thing is clear: HYMER Connect takes your comfort level to new heights during every trip. Enjoy your connected journey!

1957

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

1978

The innovative PUAL body shell is developed and sets new standards when it comes to stability.

1981

The HYMER B-Class is introduced and over the following years becomes one of Europe's most popular motorhomes.

2004

In October, the 100,000th HYMER motorhome rolls off the production line in Bad Waldsee.

2011

Opening of the Erwin Hymer Museum opposite the company headquarters in Bad Waldsee.

2019

We present the new icon of our motorhome line: the Hymermobil B-Class MasterLine.

2021

The new, connected motorhome

HYMER Exsis

DISCOVER THE FUTURE OF THE 3.5-TON CLASS.

The Exsis demonstrates our many years of experience in the field of lightweight construction: even when almost fully kitted out with two people on board, a full fresh water tank and two full gas bottles, there are still payload reserves of up to 450 kilograms depending on the layout. An all-time best in the 3.5-ton category. The exterior of the Exsis also boasts a unique design and ingenious features. Amongst other things, its aerodynamic design ensures low fuel consumption, quiet driving and a perfect view. The innovative bodywork technology endows the Exsis with excellent insulation values, stability and durability.

HYMER EXSIS PURE 580

The Exsis Pure 580 builds on the Fiat low-frame chassis, which is optimised for motorhomes. It impresses with a brand new interior concept and is a future-proof embodiment of the new HYMER design language. The Exsis is available as an integrated or semi-integrated model.

The 374, 474 und 678 layouts are still available with the proven combination of Fiat chassis cowl and ALKO frame in a large selection of layouts and modern furniture finishes.

Layouts are shown on page 18.

Garage loading capacity up to 450 kg

THE EXSIS PURE 580.

COSINESS IN ABUNDANCE.

Thanks to the vehicle's design and new surface materials, the living area is now even more generous and inviting.

HARMONIOUSLY INTEGRATED.

The 32-inch flat-screen TV in the Exsis PURE 580 is blended perfectly into a recess in the bathroom wall. This elegant solution ensures an excellent view from the driver and passenger seats.

PROFESSIONALLY PREPARED.

The kitchenette conveys an open and spacious feeling – thanks to the standard 142-litre refrigerator, integrated rubbish bin as well as optimal usability, for example, by means of a practical worktop extension.

ROOM TO BE YOU.

LIMITLESS PRIVACY.

The extremely spacious comfort bathroom features a large, separable shower and generous space in front of the washbasin unit.

PLENTY OF ROOM FOR SWEET DREAMS.

The single beds in the Exsis Pure 580 can be optionally equipped with a connecting cushion between the mattresses. The numerous overhead lockers and floor-to-ceiling wardrobe make your sleeping comfort complete. Shown here are the overhead lockers above the rear bed, which are available as an optional extra.

THE HEIGHT OF CONVENIENCE.

The extra large rear bed is easily accessible via the new, fold-out comfort steps with non-slip coating.

SLEEP LONGER.

The 2.18 m-long XXL bed is a special highlight in a vehicle under seven metres in length. It is available for some layouts and offers an extra 23 cm in length. Naturally, there is still room for the half-height wardrobe and additional linen drawer.

FEEL LIKE YOU'VE FINALLY ARRIVED.

TOTAL RELAXATION.

The cab is perfectly integrated into the living area for a real home-from-home feeling, pictured here in the Exsis-i 678 with modern Sauvignon Oak furniture finish and Janeiro fabric combination. The optional overhead lockers instead of the fold-down bed extend beyond the driver and front passenger doors.

JUST LIKE A HOME CINEMA.

Thanks to the optional 32-inch flat-screen TV, the Exsis creates a fabulous home cinema feeling even when on the road.

DELIGHTFUL COOKING.

A generous corner kitchen is part of the standard equipment in many Exsis models. The readily accessible overhead lockers and large, flexibly partitioned drawers are a boon when pottering in the kitchen.

AMPLE SPACE, LIGHT AND QUALITY OF LIFE.

THE BED OF YOUR DREAMS.

The position of the fold-down bed above the cab also offers maximum freedom of movement and headroom. It offers a comfortable bed surface extending across the entire width of 1.50 m.

EXTREME WELLNESS.

The spacious en-suite bathroom in the Exsis 678 leaves nothing to be desired thanks to a separate shower and washroom. Generous bathroom cabinets with plenty of storage space make it easy to keep all your accessories within reach. The shelves are fitted with tensioning straps as standard to keep small and fragile items secure, even when the vehicle is in motion. If necessary, the storage space in the shower can be easily expanded thanks to the standard clothes rail.

HYMER T-Class S

INNOVATIONS FOR YOUR HOLIDAY.

The new HYMER T-Class S is the first of its kind in many ways. The interior boasts a cosy ambience with modern designer touches that are typical of HYMER, as well as a smart lighting concept and a particularly generous feeling of space. It is also the first of our models based on the proven and technologically superior Mercedes-Benz front-wheel drive chassis with original frame. And thanks to its straightforward handling, it is also the ideal first HYMER for everyone.

Layouts are shown on page 26.

THROW YOURSELF INTO YOUR NEXT ADVENTURE. RIGHT AFTER BREAKFAST.

ENSURE YOU ARE IN TOP FORM.

The new kitchen worktop appears more spacious and offers improved ergonomics.

UNIQUE DESIGN.

The completely revised design is modern, straightforward and timeless. The specially designed textured surfaces and white accents ensure a unique, contemporary flair. The furniture finish of the table and counter-tops radiates a charming warmth.

SIMPLY GOURMET.

The corner kitchen allows even greater freedom of movement. The floor-to-ceiling 152-litre compressor refrigerator is included as standard and offers enough room for all the ingredients you need to prepare even the most elaborate dishes.

HOLIDAYS WITHOUT HEADACHES.

The completely flat, stepless upper floor in the living area offers comfortable headroom of 2.05 m with an overall length of 7.09 m – 7.39 m.

DON'T DREAM ABOUT TRAVELLING. DREAM WHILE TRAVELLING.

BLISSFUL ISOLATION.

A restful sleep is an important part of the perfect holiday. The twin beds in the T-Class S 685 are each over 2 m long – making it easy to relax and stretch your legs.

THE PERFECT TEMPERATURE, ALWAYS.

To ensure you are always nice and warm without relying on gas, the T-Class S is the first HYMER to feature a powerful diesel heater as standard. Optional gas heating is still available.

JUST LIKE YOUR SHOWER AT HOME.

The spacious en-suite bathroom with 1.94 m headroom ensures plenty of space even for taller passengers. In addition, the space can be used as a passageway with the shower open, whereby the shower fittings disappear elegantly behind the folding wall.

HYMER ML-T

THE ESSENTIALS ARE ALWAYS ON BOARD.

The HYMER ML-T is based on the original ladder-type frame with rear-wheel drive (also available with four-wheel drive) and an innovative lightweight construction. The result is an agile, semi-integrated vehicle that is the pinnacle of motorhome design. Comfort and convenience can be seen and felt in every detail: the level living area floor, the large seating area and the table that comes with an extension as standard are just a few examples. The HYMER ML-T also comes with a comprehensive safety package. What's more, it boasts a range of standard equipment and additional comfort features which are unrivalled in this class.

Layouts are shown on page 38.

THE IMPORTANT THING IS NOT WHERE YOU ARE. BUT RATHER, HOW YOU ARE.

MODERN SIDE KITCHEN.

A Smart-Tower refrigerator (142 litres), a hinged worktop extension and, on request, kitchen wall cladding and many additional sockets throughout the vehicle. The large side kitchen in the ML-T 580 includes deep kitchen drawers, which are slanted to increase the size of the passageway, and easily accessible overhead lockers – shown here in the Noce Cognac furniture finish.

AMPLE SEATING.

Thanks to the 360° rotatable table, which can be adjusted both lengthways and crossways, the Comfort L-shaped seating area in the ML-T 580 can accommodate up to 4 people – shown here in the Noce Cognac furniture finish and Cristallo fabric combination. The 620 model even includes up to 5 seats.

ELEGANT LIVING AREA.

Planning the day ahead or simply relaxing – ideal uses for the stylish seating area, shown here in the agile ML-T 570 as an L-shaped seating area.

A LINEAR AESTHETIC COUPLED WITH MODERN CHARM.

COMFY SLEEPING OASIS.

The comfortable single beds in the ML-T 570, 580 and 620 are also available with our comfort sleeping system, which includes disc-spring bed frames and HYMER fitted sheets. On request, the single beds can be converted into a giant sleeping oasis via an additional cushion.

GENEROUS STORAGE SPACE FOR YOUR CLOTHES.

Ample space is provided for your clothes thanks to a large wardrobe under the hinged foot section of the single bed and also – in the ML-T 580 and 620 – in an additional floor-to-ceiling wardrobe.

TASTEFUL DOWN TO THE LAST DETAIL.

The beautiful and spacious comfort bathroom in the ML-T 580 offers a separable shower, a comfortable bench toilet, a high-quality washbasin made of “Cool Glass” and plenty of practical storage space.

EDITION MODEL

HYMER ML-T 570

DRIVEN BY FREEDOM.

No road is too rocky, no approach too steep, no route too winding and no weather too stormy for our ML-T 570 CrossOver edition model. Combined with the usual HYMER comfort, it offers a unique travel experience – far away from crowded campsites and busy roads.

To make this possible, the semi-integrated HYMER ML-T 570 has received a special off-road upgrade – a high-traction four-wheel drive system. In combination with all-terrain tyres, this ensures even more fun and improved driving dynamics on rough terrain.

Extensive standard equipment, including a solar installation, gives you additional independence on your travels. With the Lithium self-sufficiency package, you can stay off-grid for up to 10 days (based on typical charging and consumption rates). Free. Comfortable. Safe.

CORSICA – EXPLORING THE “ISLAND OF BEAUTY” WITH 4X4 AND SUP.

PETER LINTNER
AUTHOR

CORSICA (FRANCE)
DESTINATION

HYMER ML-T 570 4x4
MODEL

With its numerous bays, Corsica has a coastline of 1,000 km.

MUNCHING MUSSELS EARLY IN THE MORNING.

And so we reach Corsica well rested, but with grumbling stomachs. Which is why we head directly to the south of the island, where our first stop, logically, is the Géant Casino supermarket. Loaded up with delicious Corsican food, the next culinary highlight is already waiting for us.

The coastal road leads us to Étang d'Urbino – the famous “shell beach” just outside Ghisonaccia. It is home to a restaurant that not only serves daily freshly harvested mussels from its own farm, but also has a beautiful terrace with a view of the lagoon. The perfect setting for our delicious seafood! Exactly what we had hoped for when we left, somewhat wistfully, our own terrace the previous evening.

Read the full travel story and others at:

<https://www.hymer.com/de/en/travel-enjoy/travel-stories>

For us, the Corsican adventure begins on one of those late summer evenings we would love to spend sitting on the terrace with a glass of wine until dawn. However, this time the wine stays in the cellar. Just eight hours later we need to be in Livorno, which is almost 700 kilometres away, in order to reach the outgoing ferry that will take us to Corsica.

A SLEEPLESS NIGHT.

And, as everyone knows, the ferry waits for no one – especially not German holiday campers. So, we hit the road and cruise past many beautiful places that are more than worth a visit: Innsbruck, Verona, Modena, Bologna and Florence – we simply skate around them and disappear into the starry, Italian night.

But when our ML-T 570 finally turns off towards the port of Livorno after a journey of almost seven hours (there is even time for a fresh espresso before boarding the ferry), those missed opportunities are already long forgotten. On the four-hour crossing to Bastia there is only excitement about finally reaching our dream island. And, of course, a short nap to catch up on the previous night's sleep.

HYMER B-Class ModernComfort

A NEW GENERATION HITS THE ROAD.

The successful partnership between Mercedes-Benz and HYMER has resulted in vehicles that are exceptionally innovative, safe and light. As a highly innovative motorhome, the new HYMER B-Class ModernComfort impresses with a combination of the new Sprinter chassis cowl from Mercedes-Benz and HYMER's internally developed, award-winning SLC chassis – and now also with smart control via the Hymer Connect app.

Thanks to its extremely lightweight yet sturdy bodywork, enhanced safety features and outstanding ride comfort, this sporty-elegant motorhome ensures you are always one step ahead – safely below the 3.5-ton limit and with a level floor in the living area.

Layouts are shown on page 50.

HYMER ML-T – B-MC-T/I

FEEL AT HOME ON THE ROAD.

MODERN AMBIENCE.

Relaxing as a couple or enjoying time with friends? You can do both in the spacious seating area with the Delfi fabric combination and Noce Cognac furniture finish. In addition, the modern LED lamps let you create your own individual lighting mood.

FEEL GOOD RIGHT FROM THE START.

A recess in the rear wall of the washroom allows a 32-inch LED TV to be harmoniously incorporated into the overall design of the ModernComfort 580's living area. The driver and passenger seats afford an excellent view of the TV, which can even create a "fireplace feeling" if desired. The bed with optional 2.15 m bed surface is visible in the background – shown here in the Grand Oak furniture finish and with the Janeiro fabric combination.

COOKING HAS NEVER BEEN SO MUCH FUN!

The Noce Cognac furniture finish lends the interior of the B-Class Modern-Comfort a modern, fresh and high-class ambience. The result is an impressively open and generous sense of space, since all areas can be optimally utilised. Thanks to the standard 142-litre refrigerator, integrated rubbish bin in the kitchen and practical worktop extension, small snacks and large menus can be prepared easily and conveniently.

COMFORT ON COMMAND.

Whether on summits, lakes or hikes – with HYMER Connect you can make things comfortable in your B-Class ModernComfort even when you're still miles away. Simply pull out your smartphone, activate the appropriate scenario and relax in the knowledge that a pleasant temperature, a hot shower and relaxing mood lighting await you. HYMER Connect is now available as standard equipment.

COMFORT FROM HEAD TO TOE.

EXTRA SPACE, EXTRA WELL-BEING.

In the B-Class ModernComfort 680/690, the toilet and shower are separated – for even more privacy and comfort. At up to 1.94 m, the shower offers enough headroom even for taller travellers.

COMFORTABLE FOLD-DOWN BED.

The B-Class ModernComfort integrated motorhomes include a wide, comfortable fold-down bed, which lowers right down above the cab and is firmly supported in the sleeping position, so that nothing gets in the way of a restful night's sleep. The fold-down bed can be optionally extended to form twin beds via pullouts.

HOW ABOUT A LITTLE EXTRA?

Good news for taller travellers: the twin beds in the 580 layout are available in a length of 2.15 metres on the right-hand side in addition to the traditional size of 192 x 86 cm. An extraordinary feature in a vehicle with an overall length under 7 metres – and there is still room for the half-height wardrobe and additional linen drawer. The overhead lockers in the rear embody the vehicle's new design language.

SAFE FROM TOP TO BOTTOM.

The rear bed, which has been converted into a giant sleeping oasis, can be reached – and exited – conveniently and now even more safely via the new fold-out steps. The generous comfort steps are equipped with a non-slip coating to match the flooring.

EDITION MODEL

HYMER B-Class ModernComfort WhiteLine MAKES THE COMPETITION LOOK PALE.

The WhiteLine edition model built on the Mercedes-Benz Sprinter chassis combines maximum safety and modernity with driving dynamics and comfort. Inside and outside, everything embodies the spirit of the "Next Generation".

The exclusive special decals ensure a dynamic design. The familiar HYMER high-tech body picks up the lines of the Mercedes chassis and the visible edges are optimally designed. Sporty touches are added by the rear light mouldings and the garage with its diffuser design.

Inside, the WhiteLine captivates with a new generation of furniture in the colours Grand Oak and Noce Cognac. The upholstery materials are impregnated with "lotus effect" stain protection. The level living area floor and optimised design of the storage space contribute to the generous feeling of space. The equally spacious comfort bathroom includes a separate, partitionable shower.

Among other things, the WhiteLine comes as standard with a 9G-TRONIC automatic transmission and an engine that delivers 170 hp. Other highlights include the latest generation of safety systems, Distronic active distance assist, an electric parking brake as well as automatic daytime running lights and headlights. Naturally, comfort and convenience are also included – a 32-inch TV, satellite system and an awning are all standard equipment.

DOG-WALKING IN THE MOUNTAINS – PURE RELAXATION.

Being out and about with your four-legged friend means getting better acquainted with your surroundings. Daily play sessions and walks or hiking tours automatically draw dog owners out into nature. The walk is not just for the dog's benefit! You cannot help but enjoy this feeling of freedom.

The Dolomites are perfect for this. An impressive mountain range with snow-covered peaks, even in summer. And the clear mountain lakes are a welcome refreshment for your dog. After an active day, you let your gaze wander into the distance as you both enjoy some well-earned dinner – before settling happily into your comfortable beds.

Comfort and safety – also for man's best friend.

When on holiday with a dog, the most important thing is that your four-legged-friend can travel safely and feels comfortable in unfamiliar surroundings, especially at night. A motorhome offers enough space to act as a very comfortable "kennel". Of course, safety must also be ensured during the journey; however, this is not a problem with the right equipment.

For more travel stories visit
www.hymer.com/de/en/travel-enjoy/travel-stories

A PERFECT MATCH FOR YOUR DOG.

Depending on your dog's size, it will find a safe retreat in the small or large aluminium **HYMER dog box**, e.g. while on the road. For a cosy nap during the day or night, there is also our made-to-measure and easy-to-clean **HYMER dog bed** (for Fiat and Mercedes) in imitation leather, including comfort cushion and leash. The practical **flex&leash dog leash** can be easily wrapped around the table leg and offers freedom of movement from 85 cm to 150 cm. The **HYMER awning holder** is also a useful aid – it can be attached via a suction cup to smooth surfaces and the vehicle's exterior. You can also attach the leash to it. By the way, the **HYMER organiser** has space for all the little things you need for your dog. The two pockets can be integrated into the standard main entry door in place of the elastic straps.

HYMER B-Class MasterLine
AS UNIQUE AS
YOUR JOURNEY.

Mount Everest. The Eiffel Tower. The Mona Lisa. Some things are so unique that they redefine an entire genre. HYMER is one of them. Through over 60 years of hard work, we have ensured that our name is not only a guarantee of quality and technical know-how, but also a synonym for the motorhome itself. With the new B-Class MasterLine, we have created a vehicle that truly lives up to this claim. Treat yourself to the journey of a lifetime – in the HYMER among motorhomes.

HOME FROM HOME.

PERFECT IN EVERY DETAIL.

Thanks to the Duo-Core upholstery concept with LoungeComfort system, the generous L-shaped seating area is so comfortable it is almost certain to become your favourite spot. In the integrated 780 it also features a drawer as standard and blends harmoniously into the kitchen area.

OUTSTANDING DESIGN.

A feast for the eyes. Rather than dividing the interior into separate room elements, we have instead created a spatial flow that is cleverly enhanced by our new lighting concept. This makes the interior appear roomier and more spacious than ever.

YOUR CINEMA ON THE ROAD.

Thanks to the optional electrically movable 32-inch TV, you can experience top-class entertainment even when travelling.

GOURMET KITCHEN ON WHEELS.

The extra-wide kitchen is heaven for those who enjoy cooking. The kitchen is available as standard with deep drawers and servo soft-touch closing mechanisms, integrated kitchen wall panelling, the optional hybrid cooker and a generous work surface – and makes cooking an experience in its own right.

COMFORT ON COMMAND.

Whether on summits, lakes or hikes – with HYMER Connect as standard equipment, you can make things comfortable in your MasterLine even when you are still miles away. Simply pull out your smartphone, activate the appropriate scenario and relax in the knowledge that a pleasant temperature, a hot shower and relaxing mood lighting await you.

YOUR SANCTUARY – ANYWHERE IN THE WORLD.

LIKE SLEEPING ON AIR.

For the perfect night's sleep, the bedroom in the new B-Class MasterLine offers two extremely comfortable beds that are over 2 m long and 89 cm wide. Available as standard with our comfort sleeping system, they can also be converted into a large bed surface on request.

SAFEGUARDING YOUR PRIVACY.

The bathroom features a separate shower cubicle with up to 1.94 m of headroom, which can be easily separated from the living area by closing the intermediate door. Thanks to real glass doors it provides some genuine home comfort.

YOUR PERSONAL WELLNESS TEMPLE.

The saloon bathroom (880/890 layouts) including towel radiator, shower, washbasin, double-door wardrobe and magnetically adjustable make-up mirror invites you to enjoy relaxing spa moments. The separate toilet provides additional privacy.

B-CLASS MASTERLINE 780
MODEL

THE JOY OF TRAVEL

The entrance to the port of Gothenburg is spectacular: the Stena Line ferry only narrowly fits underneath the Älvsborgbron bridge. The masterly performance of the crew is especially evident from our vantage point on the top deck. After we dock, everything happens very quickly – we are back on the road towards Kristiansund in no time. We have allowed eleven hours to complete the approximately 850-kilometre drive to the Atlantic coast; however, it ends up taking us a little longer due to some very worthwhile stop-offs.

In Norway almost everything takes place outdoors. A real paradise for outdoor fans!

To describe the journey in the HYMER as comfortable would be an understatement. We feel like royalty the moment we step on board.

Read the full travel story and others at
www.hymer.com/de/en/travel-enjoy/travel-stories

The Stena Line ferry glides serenely through the Archipelago of Gothenburg, accompanied by screaming seagulls. Our HYMER B-Class MasterLine, almost eight metres long and three metres tall, fits easily into its appointed berth inside the hull. After a relaxed evening with an excellent buffet followed by a restful night, we stand on deck and enjoy the new morning. Travelling by ferry to your destination puts you in a holiday mood right from the start. Like a switch being flipped, relaxation sets in spontaneously the moment you check in. We grab our bags and make our way to our cabin. We're all set. We opted to travel via Gothenburg because we want to check out the Swedish west coast. The traditional route via Oslo, on the other hand, would have saved us around three hours of driving, but we would have missed out on Sweden's incredibly beautiful landscape.

A single picture of the Atlantic Road – called "Atlanterhavsveien" in Norwegian – was enough to make up our minds. The photo showed a lonely street in the middle of the sea, surrounded by thunderous waves, steadfastly defying the forces of nature. Such striking symbolism! It doesn't take us long to load the motorhome and set off for the north. Our e-trekking and mountain bikes are also on board, as we want to experience this part of the coast both on and off-road by bike.

THE INTERIOR AT A GLANCE.

THE HYMER SUPER LIGHT CHASSIS (SLC).

FRESH WATER AND WASTE WATER TANKS

with large capacity (180 l fresh water, 150 l waste water) for greater self-sufficiency – heated, insulated and 100% winter-ready

THERMAL COMPARTMENTS IN THE DOUBLE FLOOR

with a single-level loading compartment of up to 70 x 24 cm (W x H) with access from both sides, up to 1,000 litres of total storage volume and a raised floor height of 36 cm

REDUCED WEIGHT

with increased maximum payload thanks to high-quality lightweight construction – 16% lighter than a conventional chassis

LOW CENTRE OF GRAVITY

with uniformly level underbody for reduced body roll, high driving stability and minimal driving noise

HEATER IN THE DOUBLE FLOOR

is now much quieter thanks to its location and protects the tanks against extreme temperatures

GRP GARAGE CASING FOR HEAVY LOADS

can carry up to 450 kg with a storage volume of up to 3,800 l

HYMER PUAL 2.0

GAPLESS ELASTIC BONDING OF ROOF AND WALLS

for outstanding stability and torsion resistance that prevents ingress of water and moisture

STATE-OF-THE-ART DESIGN WITH NO THERMAL LOSS

thanks to the inner and outer skin made from polyurethane foam and aluminium, which combines extreme longevity with a lower overall weight

WINTERPROOF WITH EXCELLENT THERMAL INSULATION VALUES

A 34 mm PUAL wall is equivalent to an 80 cm-thick solid brick wall

EXCELLENT INSULATION VALUES

Perfect winter performance due to even and fast heat distribution

EVEN GREATER AUTONOMY WHEN TRAVELLING.

The revolutionary HYMER Smart-Battery-System.

There's no longer any reason to leave the perfect spot too soon. Now you can enjoy extra freedom thanks to a self-sufficient, on-board power supply system. The Smart-Battery-System combines the superb performance of lithium batteries with the low costs of conventional lead batteries. The result: considerably heightened performance, a significant increase in self-sufficiency, an enormous increase in the lifespan of the entire system and lower costs for the overall service life.

INCREASED SELF-SUFFICIENCY

REDUCED WEIGHT WITH INCREASED CAPACITY

ALLOWS MODULAR EXPANSION TO THE DESIRED CAPACITY

WINTER-PROOF SYSTEM THANKS TO INTEGRATED HEATER

CAN BE EASILY RETROFITTED.

The Smart-Battery-System is suitable for HYMER motorhomes and HYMER camper vans from model year 2015. It is available in two retrofit packages. For more information visit hymer.com or ask your dealer.

YOU WILL FIND COMPATIBLE ACCESSORIES
FOR YOUR VEHICLE HERE.

HOLIDAYS OFF THE BEATEN TRACK. SELF-SUFFICIENCY AND FOUR-WHEEL DRIVE.

This is no problem at all – with the right components.

GO OFFROAD ON YOUR NEXT ADVENTURE.

With four-wheel drive, off-road tyres and raised suspension, nothing can tame your spirit of adventure.

SELF-SUFFICIENT POWER SUPPLY.

A solar installation and ample batteries mean that your HYMER isn't reliant on external power supplies. The Lithium self-sufficiency package enables you to camp self-sufficiently for up to 10 days.

ECONOMICAL AND RELIABLE HEATING.

A diesel heater is particularly reliable and consumes only 110 ml per hour for 1,000 W of heating power. Simply a must when camping on remote campsites in the winter.

SIZE MATTERS.

If you want to camp self-sufficiently, the size of the water tanks is critical. They should also be insulated and heated to ensure a reliable, frost-free water supply that also allows easy disposal.

DRINKING WATER – WHERE AND WHENEVER YOU NEED IT.

Thanks to a new and innovative HYMER water filter in the fresh water system – the clearliQ Travel from Grünbeck – you can enjoy drinking water throughout your vehicle at all times, anywhere in the world – and completely without chemicals. In the process, any substances with an unpleasant odour or taste are also removed, such as chlorine.

Available in the ModernComfort and MasterLine model ranges, including ex works on request. However, the system can also be easily retrofitted in all other motorhomes, camper vans and caravans using HYMER Original Parts. PIONEERING AND GAME-CHANGING.

Welcome to your connected motorhome:
HYMER Connect – the unique, digital ecosystem.

It lets you access vehicle information and control the living area functions – via the convenient and intuitive app. For example, check the mileage, the power and water levels, and even control features such as the lighting and temperature, either via Bluetooth when close to the motorhome or remotely via the mobile phone network. Your fully connected HYMER will turn every trip into something truly special.

GERMAN
INNO
VATION
AWARD '21
GOLD

THE PERFECT ENVIRONMENT – AT THE TOUCH OF A BUTTON.

The HYMER Connect app features pre-installed settings that can also be customised. This means that you can create the perfect atmosphere to suit your mood at the touch of a button.

Good Morning setting:

including room temperature 22 °C, hot-water heater turned on, lights in the bedroom and living area switched on to preset brightness

Arrival setting:

including automatic activation of heater, lights, refrigerator, water pump and satellite system

Good Night setting:

including room temperature 18 °C, hot-water heater switched to eco mode, lights turned off, refrigerator in night mode

Departure setting:

including automatic deactivation of air conditioning, water pump and light, as well as creation of a checklist

ONE APP – ENDLESS POSSIBILITIES.

What can I control with the app?

Lighting system

Refrigerator

Heater

12V 12 V switch

Water pump

Boiler

Information on water tanks, batteries, power supply

Chassis information (depending on compatibility with Mercedes-Benz)

Satellite antenna

MILEAGE AND FUEL? CHECK!

The HYMER Connect app features practical, preprogrammed checklists. These are designed to help you with activities that you are doing for the first time or don't often do – and they guide you through the process step by step.

HOW DOES THE APP CONNECT TO MY MOTORHOME?

The various features can be controlled by smartphone from any location – when close to the motorhome (at a radius of around 15 m), the app connects via Bluetooth, and when further away, the app works via the mobile phone network.

IN WHICH COUNTRIES IS CONTROL VIA THE MOBILE NETWORK POSSIBLE?

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom. In other countries, control via mobile radio is unfortunately not possible.

ICON LEGEND.

Everything at a glance.

FOUR-WHEEL DRIVE

An optional four-wheel drive system with greater traction, improved driving stability and the latest generation of ADAPTIVE ESP® means you can master every challenge in all weather and road conditions.

SHOWER

By housing the wheel arches inside the double floor, we were able to design the shower with a significantly larger level floor.

ENTRANCE DOOR

The 65 cm-wide entrance door is particularly generous and functional, providing easy access to your motorhome.

FACE-TO-FACE SEATING AREA

This seating area allows the passengers to sit directly opposite one another; the table folds away to allow access to the cab.

FRONT-WHEEL DRIVE

The front-wheel drive system is much lighter than its rear-wheel drive counterpart, which reduces the overall weight of the vehicle and allows a larger payload. The front-wheel drive is available with a 6-speed manual or 9-speed automatic transmission.

GARAGE LOADING CAPACITY

With a loading capacity of up to 450 kg, the garage can accommodate a vast amount of travel equipment, such as numerous bicycles and e-scooters.

GRP

Due to the indestructible GRP coating – for example, on the roof, rear and underbody – your HYMER is virtually immune to weather-related damage, stone impacts, road salt and dirt.

LARGE GARAGE

The garages of HYMER motorhomes include a garage door on both the left and right side as standard (available as an option for the Exsis 580 and T-Class S). This means the garage can be loaded from both sides and offers plenty of storage space – for example, for your e-bikes and e-scooters.

REAR-WHEEL DRIVE

Thanks to its powerful rear wheel drive, the HYMER displays smooth, superior handling in all traffic situations – and an extremely comfortable ride into the bargain.

HYMER CONNECT APP

You can use the HYMER Connect App to control numerous living area components, such as the lighting and heater in your networked motorhome, and to access detailed vehicle information.

100% READY FOR THE ROAD

Just get in and drive! The HYMER edition models come with a pre-configured equipment package and are thus 100% ready for the road.

PUAL BODY SHELL

In 1978, HYMER set new standards with its innovative PUAL design. The excellent insulation provided by the unique polyurethane foam guarantees a comfortable temperature all year round. Find out more about this topic on page 73.

HEADLIGHTS

The HYMER LED headlights and hybrid rear lights not only meet automotive standards but also provide increased safety day and night thanks to their optimal light patterns.

SLC CHASSIS

Our internally developed super-light chassis is specially adapted to your motorhome's specifications. The completely level underbody improves the vehicle's aerodynamics and reduces noise levels. The raised, heated double floor offers extra storage space and can be accessed from both sides. Find out more about this topic on page 72.

ON THE LEVEL

Thanks to the double floor, the vehicle also boasts a level living area floor – from the cab right through to the rear. This makes it ideal for older motorhome enthusiasts, who need no longer worry about tripping hazards.

TANK CAPACITIES

Thanks to their large volume, the fresh water and waste water tanks ensure even greater self-sufficiency while on the road. They are also heated, insulated and 100% winter-ready.

MANOEUVRABILITY

The manoeuvrability of your small, compact motorhome is a great advantage, especially when searching for a parking space or negotiating ferry crossings, car parks and narrow passages.

3.5-TON CLASS

For a motorhome weighing up to 3.5 t, you are good to go with a Class B driver's licence. The vehicle is treated just like a car when it comes to speed limits, traffic regulations, tolls and vehicle tax.

NOTE

This brochure describes the series production status at the time of publication. Despite careful checking of the contents, printing errors may still appear. We reserve the right to modify the equipment or make improvements to the product(s) during the course of the model year. Before concluding a contract, please contact one of our authorised HYMER dealers for information on the current product and series status.

Some vehicles include optional extras which are quoted in the current price list and are available at extra cost. The decoration shown is not supplied by HYMER. The details of the delivery contents, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/-5%) are possible and permissible.

This data complies with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER dealer will be happy to provide you with information on any changes and the standard delivery contents.
